TERRIFYING EXPLOSION.

Giant Powder Works Blown Up in West Berkeley, a Suburb of San Francisco.

Three White Men and Four Chinese Killed—Narrow Escape of an Express Train.

Great Damage Caused in San Francisco and its Suburbs—An Appalling Incident.

SAN FRANCISCO, July 9, 9:30 a.m.—The city has just been shaken by a terrific explosion. The streets were filled with people. Windows all over the city are shattered. A dispatch was received at the office of the United Press saying that the Giant Powder Works at West Berkeley have been blown up, which was confirmed by later dispatches from Oakland. The building is on fire, and it is feared that there will be great loss of life.

The explosion gave a terrific shock in Oakland. Brick buildings swayed, windows were smashed, and the people rushed into the streets in great crowds. The Berkeley local train, which wrs standing at the station, was almost blown from the track.

It is stated that 200 persons were at work when the explosion occurred. It is reported that 180 were killed or wounded, but this report has not yet received confirmation. The inhabitants of Berkeley, Oakland and Alameda were panic-stricken and thousands sought refuge in the street. The damage done in San Francisco is found to be greater than at first supposed, and in many buildings it will be necessary to give them a thorough repairing in order to put them in a condition for use again. A jewelery store on Third street was completely wrecked and the jewelery scattered all over the street. In numerous other places huge skylights were shattered and large glass doors blown out.

The train due from Sacramento this morning was reported to have been opposite Highlands when the explosion took place, and it was rumored it had been blown to pieces and all the passengers killed. This proved to be untrue. The train was a few minutes late and reached Highlands just after the explosion occurred. At 11 o'clock the fire was still raging at the works. The rumors of the loss of life and damage by fire outside of the buildings of the powder works are much exaggerated. It is understood that only seven lives are lost, three whites and four Chinese. Every building belonging to the powder works is either destroyed by the force of the explosion or fire. There is a large boarding-house half a mile from the works badly damaged by the explosion, and the roof is lifted off. A great deal of glass is broken in the residences. The last shock wrought disastrious effects in East Berkeley. Shelves and windows were knocked down and hundreds of panes were knocked from the University building. Fire is raging about the wreck, but has not yet reached the main magazine. It is expected to communicate there at any time, when the biggest explosion of all will occur. There is a panic and people are afraid to go near the works. There is not a window left intact in West Berkeley. Only three bodies thus far have been found. A gentleman, who was on Berkeley Hills at the time of the explosions says:—There were five distinct explosions, the first being unlooked for and was not seen, but was severely felt, as well as heard. We then watched a little hill down by the bay for further demonstrations. The second explosion followed in a few seconds. There was a light haze overhanging the water and preceding a vast volume of smoke. We could distinctly see the effect of the concussion on the atmosphere, throwing the light haze up in a great wave. This wave of concussion could be distinctly seen coming with rapid strides up the hill toward where we stood in East Berkeley, and when it reached where we stood the full benefit of the roar of the explosion reached us. After the wave rose from the works there followed an immense volume of smoke which cast a gloomy shadow over the country around. Then, as though the mouth of hell had opened, just inside the Golded Gate a lurid flame shot up. After this we stood and watched for further demonstrations, and we had not long to wait. Suddenly another great wave shot up, followed by a dense cloud of smoke and flame. Two more followed in quick succession, and we could see three distinct waves of concussions on the hazy atmosphere, rolling towards us. As the first of three could be seen directly over our heads the roar of the explosion broke upon us more terrific than the former ones, and even the dumb animals showed great fear and sought shelter. The two that followed created great consternation among both man and beast. Pictures were thrown from their hangings. Great numbers of large windows were broken into a thousand fragments, even goods in the grocery stores were thrown to the floors; the glassware was all broken into fragments.

The explosion, in the force and quantity of powder destroyed, was never equalled in the United States. The loss will amount to $160,000, but the company say they will rebuild as soon as possible. Three white men in the nitro-glycerine house and a Chinaman were killed: John G. Elsurtiga, German, single; Wallace Dickinson, Canadian, single; Jack Beau, French-American, married.

IS IT ANARCHISM?

The Law a Failure—An Illegally Constituted Power at Homestead, Pa.

NEW YORK, July 9.—The Sun this morning editorially discussing the Homestead riots, says:—There is nothing now to prevent the strikers at Homestead from opening the great Carnegie plant on their own account. They are in full possession of the property. They hold their title from the Governor of Pennsylvania, and it only remains for them to capture Carnegie and his partners and force them to work as slaves in managing the business. Law and order are no more, and the constitution is put upon the executive of Pennsylvania, and as if it were not enough that this black and bloody record of robbery and murder has been achieved on the banks of the Mononga-hela, there must arise an inconceivable crank in Washington to bring derision and shame upon the constitution and history of the United States on the very floor of the Senate. It behooves every man to know that these are serious times, and that the safe-guards of our liberties are in peril, when a profligate and vicious press is inciting to murder and riot, and an emasculate and cowardly executive is false to every idea and principle of duty.

PITTSBURG, July 9.—In the conduct of affairs by the Carnegie Steel Company at Homestead, Chairman C. H. G. Frick, of the Carnegie Steel Company, is acting under direct instructions from Mr. Carnegie. Mr. Carnegie has been kept informed of the progress of events and of the outlook, and has kept in close touch with affairs at Homestead. From what has been learned to-day, the struggle is to be carried through with no change. Carnegie, it is asserted, is determined absolutely to maintain the stand he has taken. Frick has received Mr. Carnegie's ultimatum that the company will hold out on its present lines to the end, no matter what the end may be, and that Mr. Carnegie will not sanction the re-employment of any of the discharged workmen, and that he will hold out till the grass grows over the mills rather than give in to the association.

It is said to-day that Chris McGee and several prominent Republicans in the city on Thursday signed and sent a cablegram to Andrew Carnegie, begging him to do something to bring about an adjustment of the trouble. It is further said the answer to the cable received this afternoon refused to interfere in any way. Mr. Carnegie said he was not familiar with the situation, that the men in charge of the mills were the men in whom he placed confidence, and he must rely on their judgment to settle the trouble in a business way, regardless of any political organization.

To Return Carnegie's Gifts.

PITTSBURG, July 9.—A London cablegram announcing the disgust of the Scotch workingmen with Andrew Carnegie and the probable return of his gift of £10.000 to the Aberdeen library, suggests a similar move to the Window-Glass Workers' Association of the United States. It has 6000 members, with headquarters here. The executive body adopted to-night a series of resolutions which will be presented for consideration to-morrow night to the Trades' Assembly, which represents 100,000 workingmen of the cities of Pittsburg and Allegheny. The resolutions request H. J. Gourley, Mayor of Pittsburg, to ask the council to return Carnegie's present of $1,000,000 for a free library for Pittsburg.

The Honduras Revolution.

CITY OF MEXICO, July 9.—Advices received here to-day announce the capture of President Leiva of Honduras by the revolutionary forces and their complete triumph. All accounts received as to the causes of the revolution attribute it to the laisser faire policy of Leiva, which resulted in the concentration of power in the hands of an unpopular bogran and the exactions of Munosa as collector of the port of Ceiba, a position which he succeeded to while leader of the insurgents.

A Circus Wrecked.

DUBUQUE, Iowa., July 9.—Cook and Whitby's circus of 22 cars was wrecked six miles below McGregor this morning. A broken truck ditched five cars. Thirty horses were killed. One car contained fourteen horses and fifteen colored musicians. Every horse was killed outright, but every man escaped except two, one of whom was injured perhaps fatally, the other slightly. The circus manager burst into the cars exclaiming: "My fourteen best horses killed and not one of you d——darkies."

A 1 shaving materials at Fox's.

THE POLITICAL BATTLE.

Liberals Have Now a Net Gain of About Thirty Seats Over Their Opponents.

The Struggle Now Showing Every Appearance of Coming to a Close Finish.

Some of the County Divisions Going Over to the Liberal Side—Returns in Detail.

LONDON, July 9.—The Liberals have been gaining steadily, though slowly, in the elections yesterday and to-day. At present it looks as though they would to-night finish up the first week's polling with a net gain of about 30 seats. This would come near wiping out the majority held by the Government at the close of the last Parliament, so that any future gains will place the Liberals within reasonable reach of power. Predictions are not very confidently made on either side just at this stage Returns to-day are as follows:

Leicestershire, Loughborough division—Johnson Ferguson, Liberal, elected over E. Belisle, Conservative. This is a Liberal gain.

Westmoreland, Kendal division—Bagat, Conservative, over Farrar, Liberal.

Suffolk, Eye division—Stevenson, Liberal, re-elected over Holland, Conservative.

Yorkshire, Ripon division—Wharton, Conservative, re-elected over Leetham, Liberal.

Lanarkshire, south division—Hozier, Conservative, re-elected over Hedderwick, Liberal.

Northamptonshire, South division—Guthrie, Liberal, elected over Cartwright, Conservative. This is a gain of another seat for the Liberals.

Lincolnshire, Brigg division—Waddy, Liberal, re-elected over Richardson, Conservative.

Wiltshire, Devizes division—Hobhouse, Liberal, elected over Long, Conservative. This is another seat gained for the Liberals.

Swansea district—Vivian, Liberal, re-elected over Monger, Liberal-Unionist.

Durham, Southeastern division—Richardson, Liberal, elected over Havelock-Allan, Liberal-Unionist. Liberal gain.

Derbyshire, Middle division—Jacoby, Liberal, elected over Saunders, Conservative.

Bedfordshire, Biggleswade division—Russell, Liberal, elected over Viscount Baring, Liberal-Unionist. Another Liberal gain.

Oxfordshire, Henley division—Parker, Conservative, elected over Phillimore, Liberal.

Dublin University, two members—Plunket and Carson, Conservative, elected over Liberal-Unionists.

Surrey, Reigate division—Cubitt, Conservative, elected over Barnes, Liberal.

Bateshire—Murray, Conservative, re-elected over Smith, Liberal.

Shropshire, Newport division—Kenyon-Slaney, Conservative, re-elected over Lander, Liberal.

Somersetshire, Wells division—R. H. Paget, Conservative, re-elected over Horace, Liberal.

Donegal, East division—Arthur O'Connor, anti-Parnellite, re-elected over Hardman, Liberal-Unionist.

Sussex, East Grinstead division—Gathorne-Hardy, Conservative, re-elected over Jenkinson, Liberal.

Lancashire, Clitheroe division—Kay-Shuttleworth, Liberal, re-elected over Briggs, Liberal-Unionist. Kay-Shuttleworth was Chancellor of the Duchy of Lancaster under Gladstone.

County Down, North Division—Warring Cobb, Conservative, without opposition.

Surrey, Chertsey Division—Combe, Conservative, without opposition.

Lancashire, Blackpool Division—White Ridely, Conservative, elected over Walker, Liberal.

Yesterday in the Ince division of Lancashire Col. Blundell, Conservative, was defeated by Woods, a Labor candidate. This fight was not on the Home Rule issue. Col. Blundell is owner of the Pemberton colliery, and the general prejudice against the owners of the collieries was used against him. His defeat is counted a Liberal gain. The general assumption is that all the successful Labor candidates are Liberals, which assumption may not stand the test of experience. At Inverness, Scotland, the Liberals also made a gain in the defeat of Mr. Robert B. Finlay.

The Liberals yesterday made six gains as against one Liberal-Unionist and three Conservative gains, giving the Liberals a net gain of 24 from the beginning of the election. To-day's gains will increase this to about 30. This comes short of the Liberal estimate, and all now expect a very close contest in the end.

HOW A LIE TRAVELS.

Exaggerated Report in New Westminster—Chasing an Indian.

NEW WESTMINSTER, July 9.—Louis, an Indian afflicted with small-pox, came to town this morning. He again wanted to gain admittance to a Chinese shack but the Chinaman refused to let him in and told the police. The health officer is chasing for him.

The report that there are upwards of 100 cases of small pox in Victoria is creating excitement here. Already there is talk of suspending communication between Victoria and Westminster if the dreaded disease increases. The health committee held a session this morning and it is understood should small-pox again break out here radical measures will forthwith be taken for its suppression.

Delta Lodge, No. 21, I.O.O.F., was instituted at Ladner's Thursday night. The following officers were elected and installed: Frank Stannton, N.G.; E. Calhoun, V.G.; Paul Ladner, R.S.; James McCallum, P.S.; D. B. Grant, Treasurer; Thomas Curtis, Warden; William Ellis, O.G.; Jos. Jordan, I.G.; Thomas Cunningham, Con.; R.S.N.G., J. Penfold; R.S.V.G., James Ellis; L.S.V.G., J. Cunningham; A.S.S., John Welsh; L.S.S., Richard Walsh.

The city council cannot reach an understanding as to water rates, and a deadlock exists.

A meeting will be held here to-night to try and get some fresh inducements for the Methodist college to locate here.

NEWFOUNDLAND CAPITAL.

Terribly Destructive Fire in St. John's—Smouldering Ruins.

HALIFAX, July 8.—A tremendous fire is raging at St. John's, Nfld., and is fanned by a hurricane. At the time of cabling the fact a hundred and eighty houses have been burned. The telegraph operators have been driven out of their quarters by the flames and communication had ceased. The apparatus of fighting fires in St. John's is a very poor one, and the whole of the lower part of the city is in danger. The whole centre of the city is smouldering in ruins. At 8 o'clock the telegraph and cable office was burned. The fire was still spreading southward towards the historical Parliament buildings and the Governor's palace. It is impossible to estimate the loss, but already three thousand people are homeless.

HALIFAX, N.S., July 9.—A dispatch from St. Johns this morning states that the fire has destroyed the Parliament buildings. A second dispatch says that 600 buildings have been destroyed and six lives lost. Much suffering exists among the people made homeless and the mayor has appealed to other cities for relief.

PARLIAMENT PROROGUED.

The House of Commons is Dismissed To-day—The Speech.

OTTAWA, July 9.—Parliament finished its business and was prorogued this afternoon with the usual ceremonies. Besides the stock phrases the speech from the Throne had the following:

The adoption of the code of criminal law will confer a great benefit on all classes who are concerned in the administration of that branch of jurisprudence, and is an achievement which will reflect credit on the Parliament of Canada. The difficult task of readjusting the representation of the people in the House of Commons in accordance with the census returns has been accomplished with comparatively little disturbance of electoral divisions, and in a manner that I hope will prove to be satisfactory in its operation. The legislation relating to the Northwest Territories, Dominion lands, railways, patents and the inspection of provisions, and the various other measures which have been completed, are calculated to benefit the industrial and commercial interests of the country, and to promote its general welfare. You have been doubtless gratified by the announcement that the government of Newfoundland is likely to hold a friendly conference with my government on the differences which have arisen between Canada and that colony, and that in the meantime all cause of further dispute or irritation have been removed. A representation has been made to the administration of the United States that the schedule of tolls which has been in force upon the Canadian canals for some years past operates to the disadvantage of the shipping and products of the United States citizens on the great lakes. This complaint has been examined and discussed with the authorities of the United States, and a proposal has been submitted on behalf of my government that the United States will restore the concessions that were made on the part of that country by the treaty of Washington as an equivalent for concessions on the part of Canada as to the canals but which were withdrawn by the U.S. without cause so far as Canada was concerned. This proposal has not yet been replied to, but it is hoped that the fairness of the position taken by my Government will be duly appreciated by the Government of the U.S., so that further misunderstanding on this question be avoided. I trust that the provisions which you have made for the public service will be found ample for its demands.

I take leave of you with the hope that the sacrifices which you have been called upon to make by so protracted an attendance may be regarded as proof that your labors have been fruitful of benefits to the Dominion, and that our people in every part of Canada may likewise be blessed with prosperity in the harvest season which approaches.

VANCOUVER.

VANCOUVER, July 9.—The Maritime Province delegates on a tour through the west, fourteen in number, arrived to-day, Mr. Haslam in charge. They did not go to Victoria as intended, on account of the smallpox.

C. C. Morrell, agent of the Standard Oil Co., has left the city. He is said to be in financial trouble.

A Jap was found walking on Cordova street early last evening suffering from well developed symptoms of smallpox. He was turned over to the health authorities.

The board of health met yesterday afternoon to consider the startling Victoria smallpox rumors. It was decided to take no action unless the rumors were officially confirmed.

In spite of any news to the contrary C. Edwards, owner of the Eliza Edwards, announces that dispatches have been received from Captain McKenzie and Van Bramer to the effect that the schooner is not under seizure.

Try B. Sprung & Co., stalls 26 and 27 City Market, for mild bacon, fresh smoked hams, butter, eggs, etc.

BOARD OF TRADE REPORT.

The Board Holds Its Annual General Meeting Yesterday Afternoon.

The Officers, Council and New Members Elected—Mr. T. B. Hall President.

The first business disposed of at the meeting of the British Columbia Board of Trade held yesterday afternoon was the reading of the 13th annual report.

The report states that a year ago there were 132 members, 38 were admitted during the year, two resigned and three, J. C. Bales, A. A. Green and Edgar Marvin were removed by death, leaving the present number of active members at 164. During the year four quarterly and three special general meetings were held. The council met 22 times, there being a good attendance at all meetings.

Private enterprise has continued throughout the year to improve the outer wharf. The approaches to the wharf have been dredged to a uniform depth of about 30 feet at low tide. When the wharf is completed there will be facilities to dock from eight to ten ocean steamers simultaneously. The council regret that no action has been taken to build the breakwater from Brotchie ledge, which would greatly improve the harbor.

There are at present three lines of steamships running between Victoria and the Orient. The fast increasing trade with the Orient calls for strict attention to the quarantine rules and regulations, and the urgency of placing the Albert Head station in a more efficient state than at present should be brought prominently before the Dominion Government.

The report calls attention to Mr. Robert Ward's report on the wreck of the steamer San Pedro, which directed special attention to the anomalies which prevail on account of the province being divided into three separate pilotage districts. It is hoped that sectional differenees will be set aside and the recommendation of the Minister of Marine and council of the board to have a pilot boat station in the straits for the use of all be carried out. The council regret that some measure of wreckage reciprocity does not exist between Canada and the United States.

A year ago the Dominion Government appeared to have become impressed with the urgency of improving the aids to navigation on the northern section of the coast line of the province.

At the request of the Minister of Marine the Board submitted a list of lights, beacons and buoys, numbering altogether 18, required to form a safeguard to navigation (extending from Victoria to Port Simpson) and an engineer from the Department was sent out to report; it is therefore very unsatisfactory to find that the most important works have not yet been commenced; in fact, excepting a few new buoys, nothing has been done during the past year. The need of a more perfect hydrographic survey is amply demonstrated by the wrecking of the Dominion Government steamer Quadra at the entrance of Rose Harbor, on the coast of Queen Charlotte Island—on a rock which is not indicated on the official chart. These are two matters which will require the best attention of the incoming council. Your committee are confirmed in the opinion that a vessel more suitable for the service required of the Quadra could have been built in the province.

The Marine Department at the suggestion of the board has permitted the use of the Quadra in case of wrecks.

With the expansion of the Vancouver Island trade the urgency of an alternative line to connect with the United States telegraph systems becomes more apparent.

Until an alternative line is in operation the demands of our merchants and business men cannot be satisfied.

During the year the Council directed the attention of the Postmaster-General to the unsatisfactory state of the northern mail service.

The pack of salmon on the Fraser was under half of the usual pack. On the northern rivers the pack was an average one. The pack was disposed of as follows:—

To England	220,761	cases
To Canada	60,950	"
To Australia	23,531	"
Local and sundries	9,618	"
Total	314,893	"

The prices obtained were not satisfactory to the canners, the amount on hand being in excess of the demand. On this account the canners of British Columbia and Alaska decided to reduce the pack one-half this year. On the Fraser 50 per cent. and on the Northern rivers 25 per cent. of the estimated capacity will be used. This action has brought the supply within the damand and caused a uniform advance in prices. A large part of the pack has already been disposed of at 21s to 22s 6d per case.

From the early sittings of the fishery commission it was too evident that the Government had made a serious mistake in ignoring the protest of the Canners' Association against the appointment of Mr. Wilmot. It soon became evident that he would hear no evidence except such as was in accordance with his previous erroneous report made after his visit of something under two days on the Fraser river. Not only was the time of the year unfortunate (inasmuch as the Local Legislature was in session, which necessitated the presence of Mr. Speaker Higgins, one of the commissioners), but the rulings of the chairman, Mr. Wilmot, were so unusual that much valuable evidence was refused. The commission may therefore be considered as most unsatisfactory, and as having failed in the accomplishment of its object, chiefly through the action of Mr. Wilmot with the support of Mr. Armstrong. The disagreement on many important points caused Hon. D. W. Higgins to make a minority report, containing many valuable suggestions, which we trust the Government will carefully consider and act upon. So far as known the result of the commission has been to impose the further hardship upon this struggling industry of extending the weekly close season from 6 a.m. Saturday to 6 a.m. Monday; increasing the expense in disposing of the offal, limiting the number of boats to the canneries, and increasing the license fee to northern canneries to $20, making it the same as on the Fraser river. It is to be presumed that the Government intend to give the northern canneries some advantages by establishing hatcheries at different points, and otherwise appropriating the surplus, which must be considerable, to the permanent benefit of the industry. The board with the experience of the commission referred to, are more than ever convinced that the only way for the Government to arrive at a proper understanding in regard to regulations for the guidance of this industry is to appoint a board of local commissioners.

There are 3194 men employed in the collieries of Vancouver Island and the output for 1891 was 1,029,097 tons compared with 678,140 tons for the previous year. During the 33 years ending December 31st, 1891, $53,113,127 worth of gold was yielded in the province. The need of facilities for shipping ores has retarded the progress of the mining districts.

The value of industries, including sealing, is about $4,000,000, giving employment to about 12,000 employees. Industrial establishments have increased about 300 per cent. since 1881 and in proportion to the population the province now takes first place among provinces of the Dominion as a manufacturing province. The establishment of oat and flour mills and fruit canneries has stimulated the production of cereals and fruit. Two large lager beer breweries have been built during the year and the paper mill at Alberni will soon be in operation. It is to be regretted that so few of the new sealing schooners have been built in the province.

In the year 1888 twenty schooners were engaged in seal hunting, giving employment to 378 men, whites and Indians. During the present year 63 schooners have cleared from Victoria for the hunting grounds, having on board 1331 men. The value of the vessels and stores represents a capital of $750,000, and with an average catch, unhampered by the restrictions of the modus vivendi, about $800,000 would be put in circulation within the province. The skins being sold abroad whilst much of the stores and all of the labor is of local production, it will readily be seen that the profit to the province would be very great. With Behring Sea closed it is hardly possible that the operations of this year can result in other than in serious loss to the majority of those who have their capital invested in this industry. The action of the Imperial Government in renewing the modus vivendi this year, after the majority of the sealing schooners had cleared for the Behring Sea, is another instance of the indifference shown by those in authority to this growing industry. The effect upon the majority of the owners will be more severe by following so closely the heavy losses sustained last year, which have not yet been recompensed. In the interval, between 1886 and 1890, 19 sealing vessels from British Columbia were seized or ordered out of Behring Sea by the United States revenue cutters.

An all railroad route connecting the Kootenay mining region with the transcontinental railways, and that would be operative all the year round, is of the very first importance in hastening the development of its rich resources. Such a road will the Nelson and Fort Sheppard Railway be, when constructed, and this board enters its strong protest against the action of the Dominion Government in refusing a charter for its construction, impeding and delaying thereby the prosperity anticipated not only for the Kootenay district, in the profitable working of its mines, but the general advantage to the whole province, of the attraction and investment of capital in mining that would follow successful operations. It is understood that the refusal of a charter for the construction of the Nelson and Fort Sheppard road at the present session of the Dominion Parliament is not a final refusal, but rather a postponement until such time as the Canadian Pacific Railway Company are in a position to better compete with this road. As much as it is to be desired that the Canadian Pacific Railway afford adequate railway facilities to this region, it is a palpable wrong and injustice that the development of the province should be retarded in the interests of this particular corporation.

The urgency of a suitable measure to provide for the equal distribution of the assets of insolvent estates has been considered by the council. As there appears to be a strong disinclination on the part of the Federal Government to enact a measure dealing with insolvent estates, it is desirable that the board, in conjunction with the Boards of Trade at Nanaimo and on the Mainland should draft some form of procedure which within legal limits would, when enforced by the Local Legislature, as near as possible meet provincial requirements.

During 1891 about one million acres of farming land and a million and a half acres of grazing land were located in New Caledonia. Undoubted evidence was discovered of the existence of gold in many places; and silver-bearing galena, iron and coal were in abundance. A very pure vein of copper and two small veins of cinnabar ore were also located. This important portion of the province must remain undeveloped until easy modes of communication are afforded to prospectors and settlers.

The province having attracted the attention of parties for the establishment of sugar beet factories, it may be stated that on the rich alluvial lands of the delta of the Fraser river, the sugar beet grown for experimental purposes, has given highly satisfactory results; and there are doubtless other districts within the province equally favorable to the enterprise.

The appointment of a delegate to the second congress of Chambers of Commerce of the empire was referred to your board and resulted in the selection

CIVIL AND MINING ENGINEERS

Provincial Land Surveyors, Real Estate & Mining Brokers

Railway Reconnaissance and Location Contracts taken. Estimates Prepared. Prospecting Outfits Organized. Mines Reported on and Assays Furnished.

In connection with our Engineering and Surveying Department, we are opening up an office at Nelson, in the now famous Kootenay District, for the purpose of handling Real Estate and Mining in all its branches. Our partner Mr. M. S. Davys having resided in the Kootenay country for the past five years, and successfully developed valuable mining properties there, is thus able to furnish reliable information as to location and values of properties. We have secured the services of Mr. R. H. Cavill, formerly of Swansea, where he was for five years connected with the Swansea Smelter. Mr. Cavill's practical experience as manager for the past 17 years, in some of the foremost mines and mills in California, Arizona, and Mexico Central America, together with his Swansea experience, gives him a thorough knowledge of the treatment and best methods of working refractory ores.

BOARD OF TRADE REPORT.

(Continued from page 2.)

of Mr. Robert Ward. A report of the proceedings has not yet been received.

The Crofter project for colonizing certain lands on the sea coasts and islands of British Columbia has been advanced by the passage of two acts during the last session of the Provincial Legislature.

It cannot be too strongly urged upon private enterprise to support the Government with liberal representation at the World's Fair.

The province has a total population of 121,351, which may be taken as approximately correct. The Dominion census results show the increase in population of the province for the past decade, ending May, 1891, to be 87.56 per cent., but from the same data it appears that the rural population of the province other than Indians, has decreased nearly 8 per cent. in the same period. Another unaccountable inaccuracy places the population of Victoria at 16,841; whereas a recount by the corporation, a few months later, proved the number of inhabitants to be 23,153. In a new country, covering such a large area as this province does, the difficulties in obtaining a correct census are undoubtedly very great, but with the improved facilities of late years, the inaccuracies referred to appear to be inexcusable.

The report of the Audit Committee, attached hereto, shows the institution to have assets amounting to $6,509.58. Of this sum $5000 has been invested in the Board of Trade building, and there is also a credit balance at the Bank of British Columbia, $1,065.58. The net gain during the past 12 months has been $1,636.64. Your committee recommend that another $1000 of the available funds should be invested in the building now being constructed for the Board.

Several additions have been made to the Board's library during the year.

GENERAL TRADE AND OUTLOOK.

The short pack of salmon, followed by exceptionally low prices, the peremptory closing of sealing in Behring Sea in the middle of the hunting season of 1891, the collapse of the South American lumber markets, and the slackness of the California coal trade, have all combined to injuriously affect the trade of the year under review. However, notwithstanding such adverse conditions, it is satisfactory to find that the customs returns for the province exceeded those of the previous year, which were the most favorable on record. The action of the Federal Government in disregarding the almost unanimous desire of the people to open up other railway communications with the South for the expansion of trade in its natural channels, can hardly be too severely criticised, because, as the capabilities of the province become better and more widely known, its attractions to capitalists seeking legitimate investments increase, and the material interests of the country are hereby advanced. Your committee submit that the time has arrived when the Board should firmly discountenance speculative operations in real estate, referred to in the Board's previous annual report, especially sales made on the installment plan, which divert capital from legitimate enterprises. Another matter deserving attention is the easy credit and open account system prevailing amongst the wholesale merchants and retailers throughout the province, and your committee suggest that a stricter mode of collections should be enforced, and accounts should be more generally closed by notes. Meantime a great advantage is given to Eastern merchants who supply goods to retailers in this province, and it too frequently happens that drafts drawn against their invoices are protected at maturity, to the exclusion of local creditors whose claims are more justly due. The outlook for continued prosperity within the province is encouraging, especially in the Kootenay mining districts; but although some years must elapse before the mines can be fully developed, the marvelous wealth of the country is already assured. The preliminary survey of the Canada Western Railway is a matter worthy of notice; if the project is carried out, this line will open up vast tracts of rich grazing, agricultural and mining lands, which are at present inaccessible. The enterprise will require immense capital, skill and ability, and its importance to Vancouver Island can hardly be overestimated. The incoming council are recommended to press upon the Dominion Government the just claims of Victoria to better custom house and postoffice accommodation, and we regret to record continued neglect by the Federal authorities in this connection. The custom house was built in the year 1875, when the business of the port amounted to $390,141.15 against $1,033,691.13 for the past twelve months. The postoffice was completed and occupied in 1874, the gross revenue for that year being under $8000; for the year ending 30th ultimo the receipts were about $45,000. No further evidence should be necessary to impress upon the Dominion Government the urgency for replacing the existing accommodation with modern buildings, suitable for the increased and growing trade, and commensurate with the large revenue derived from this port. The board is to be congratulated upon its marked prosperity during the past year; increasing interest in its work being unmistakably manifested by the recent large accession of new members. The commodious premises now under construction will facilitate the business which year by year is entailing greater labors upon the council, and when completed the new board room will furnish a resort where members can conveniently assemble and thus result in the increased usefulness of the institution.

All of which is respectfully submitted.

Signed on behalf of the members of the British Columbia Board of Trade.

THOS. B. HALL, President.
A. C. FLUMMERFELT, vice-Pres't.
F. ELWORTHY, Secretary.

Victoria, B.C., Jul 8, 1892.

The report was referred to the incoming board for amendment and publication.

AUDIT COMMITTEE'S REPORT.

To the President and Members of the British Columbia Board of Trade:

GENTLEMEN,—We, the undersigned, appointed by your Board to examine the accounts of the secretary-treasurer, beg to report that we have examined the books, accounts, bank books and securities, and we found the same true and correct.

The assets of the Board are as follows:

Cash in Bank of British Columbia	$1,065.58
Cash in Savings Bank	3.63
Cash in Secretary's hands	5.27
FUNDS INVESTED.	
B. C. Board of Trade Building Ass'n	$5,000.00
Dues not collected (good)	159.00
Rent not collected (Fisheries Com.)	20.00
Furniture	256 70
	$6,509.58
Total assets, 30th June, 1892	4,872.94
Showing a gain of	$1,636.64

The liabilities are nil.

E. A. McQUADE,
M. T. JOHNSON,
Audit Committee.

The report was adopted.

ELECTION OF OFFICERS.

Mr. T. B. Hall was nominated by Mr. R. P. Rithet and seconded by Mr. A. C. Flummerfelt for president.

Mr. Hall said he had been in the council for four years and he thought he had ended the term.

Mr. Rithet said he thought Mr. Hall's term should end some time, but he thought the board should say when the end of the term should be. It had always been his experience that being president for one year gives a man an insight into the workings of the board and during the second year he can do a great deal more.

Mr. Hall said he appreciated what Mr. Rithet had said, but he could not afford to spend the time.

Mr. Hall was elected unanimously.

Mr. A. C. Flummerfelt was elected vice-president and F. L. Elworthy secretary.

The following gentlemen were elected members of the council and board of arbitration: Messrs. A. B. Gray, F. H. Worlock, D. R. Ker, H. F. Heisterman, Col. Prior, C. E. Renouf, W. H. Ellis, G. Byrnes, D. W. Higgins, W. F. Bullen, E. A. McQuade and H. Croft.

The following resolution was moved by Mr. Rithet in the absence of Mr. Todd, who had given notice of it:

Resolved, that the managers or agents of all incorporated financial, commercial or manufacturing institutions in the province, who are members in good standing of this Board, and who are desirous of leaving the province or resigning their respective positions, may, by and with the consent of said Board, transfer their certificates of membership to their respective successors in office, which successor on being duly proposed and elected as a member of the board shall be entitled while holding such office, to all the rights and privileges of his predecessor without the usual fee of $30 for membership.

The motion was carried.

The following new members were elected: Messrs. W. H. Redmond, P. T. Patton, F. B. Gregory, W. H. Bainbridge and L. H. Northey.

ARE YOU A MOTHER?

If you are, this will interest you.

Just a word to mothers who are obliged to feed baby artificially. There is nothing more neglected than the "feeding bottle," and a large measure of baby's happiness depends upon it. The "feeding bottle" and "teats" should be attended to with the most scrupulous attention. After feeding baby, the bottle should be put in ice cold water to which should be added a teaspoonful of good baking soda to each pint of water. The "teats" should also be placed in this same solution in order to prevent them becoming sour.

Food should never be put into an unwashed "feeding bottle"; and food should not be allowed to remain in the bottle after feeding, and fed again to the child. If these matters are neglected, the infant's stomach, by being subjected to stale and sour food, becomes deranged, and the child's whole system is disordered from a mere act of inattention and carelessness.

If you feed baby with that healthy and life-giving Lactated Food, now so universally recommenced by the medical faculty in Canada, the ordinary infant will not require it oftener than every two hours when awake; the quantity should not exceed three ounces, or an ordinary nursing bottle half full. As the child increases in age the quantity can be increased. A three months' child will thrive well on four or at the most five meals a day, and the quantity given should be six to eight ounces.

Babies fed regularly on Lactated Food as indicated above will be strong, health and vigorous; they will sleep well and soundly, and will pass safely through the excessively hot weather. We strongly advise mothers to try the celebrated Lactated Food. Already it has become a household word from the Atlantic to the Pacific, and thousands of little lives have been saved by its use.

They Did Not Meet.

There was no council meeting last night. Some of the aldermen turned up, and after waiting half an hour turned down the street, wondering why such a fine chance to have another meeting should have been allowed to pass. So far as learned there will be no more meetings this week, although there is no telling what the council will do until they actually do it, and even then one isn't always dead sure either.

The delicious fragrance, refreshing coolness and soft beauty imparted to the skin by *Pozzoni's Powder*, commends it to all ladies.

Children Cry for Pitcher's Castoria.

THE EMPRESS OF CHINA

Arrives From the Orient With a Large List of Passengers.

The Canadian Pacific steamship Empress of China arrived yesterday evening, after a pleasant and uneventful voyage of 11 days. The steamer Maude was utilized in transporting passengers and freight for this city. The Empress of China on this trip brought over the largest number of saloon passengers yet carried by any of the trans-Pacific steamers, 148 in all, besides 274 Chinese and four Japs. After the usual examination Dr. McNaughton Jones gave the ship a clean bill of health and the discharging of her cargo for this port was immediately proceeded with.

The passengers report having had a very pleasant time, the only incident to mar the happiness of the voyage being the death of the boatswain's mate, Daniel Tunder, who died after a few hours' illness, and was buried in mid ocean. A fund of $300 was raised by the passengers for the deceased's widow.

Harry Arkell, of Vancouver, who is returning after a trip around the world was one of the passengers, and reports having a splendid time on his journey, stopping particularly in England and Hongkong. H. Fraser, British Consul-General to Japan, and his wife and son were among the passengers. Rudyard Kipling and his wife, and Arizona Charley, alias Humphrey, were also among the notables.

The steamship left for Vancouver at six o'clock.

The merit of Hood's Sarsaparilla is not accidental, but is the result of careful study and experiment by educated pharmacists.

PREFERENTIAL HUMBUG.

The comments of the Conservative papers on the rejection of Sir Charles Tupper's preferential trade motion by the congress of commercial chambers in London are rather amusing. A good many of them affect to regard the adverse vote of 78 to 34 as only what was to be expected; they say, in fact, that they expected the majority to be larger. We are sorry to be obliged to confess our inability to see any source of comfort in the numbers, for the reason that the 34 votes represent almost entirely colonial opinion, while the 78 on the other side show an all too solid British opposition to the scheme. As it is Britain, and not the colonies, that has the power to govern in this matter, the vote must therefore be regarded as overwhelmingly adverse by any frank observer of the situation. As to the colonial support of the idea, that was quite natural. Asking Great Britain to agree to the scheme is much the same as asking her to make a free gift of so much money to her offspring; and if the people of the Mother Country were willing to act in this benevolent manner the colonies would be very foolish to refuse the gift. But there is the hitch; the vote in the congress shows that the British people are not so willing, and we colonials must necessarily accept their decision. Perhaps in time Sir Charles Tupper and his fellow apostles will be able to persuade the Britons that they can give the colonies a five per cent. preference without adding to their own burdens, or that they will receive in return benefits to balance the additional burden, but we are afraid that a lot of hard missionary work will be necessary to that end. All that such a paper as the Empire can do in the meantime is to sneer at Sir Thomas Farrer and Mr. Medley as "fossilized" and "old-time" writers in favor of free trade. Unfortunately for the Empire and its kindred, the people of Great Britain are still prone to listen to the voices of these free trade leaders, turning a deaf ear to the charming accents of Colonel Howard Vincent, Sir Charles Tupper and others of their propaganda. The plain, simple truth is that we cannot hope to convince the British people that the preferential trade scheme would be a good one for them to adopt.

It is curious to find some of the Tory papers persist in interpreting Lord Salisbury's Hastings speech as a pronouncement in favor of this preferential trade idea. The truth is that Lord Salisbury took special pains to pronounce the other way. He declared emphatically that Great Britain could not afford to tax agricultural products such as she receives from the United States, for they are necessaries. His idea was that the country might use import duties on such luxuries as wines, etc., in the way of retaliatory weapons. As the imposition of differential duties on United States products is an essential part of the Tupper scheme, it can easily be seen how far Lord Salisbury was from following up the Tupper idea. His speech was, in fact, a strong argument against the idea.

In the meantime, while the British people are being converted to the preferential trade doctrine what is Canada to do? The Montreal Star, which was once a strong supporter of the National Policy, says:—

Can Canada wait ten years for a preferential treaty, doing nothing in the meantime to ameliorate her condition? It is not pleasant to insist on the dark side of the case, but who does not know that the exodus was as bad this year as for the last five? The Bishops of the Catholic Church have become so alarmed over the loss of their flock that they have just taken a journey to the Northwest in hope that they may be enabled to entice some of the discontented farmers of Quebec up to that region. Ontario is bleeding sorely, as any one talking to her people can learn; even ex-members of Parliament are leaving her for the States, and an annexation feeling is certainly prevalent enough to be noticed in the west. The fact is that the farmer everywhere must get a paying outside market or he will go to the wall. He has lost his old customers across the line; he cannot live upon the home market alone; and he is taxed to the raw. Under these conditions he turns pluckily to England, but he clearly needs government aid. The answer is, "Keep quiet, and we will get you a practical monopoly of that market one of these days." That naturally tends to quiet him, for such a boon would be his making.

We believe this promise to be a cruel delusion in any event. Salisbury has said that he will not give the food producers of the colonies a straw's weight of advantage over foreign competitors. If he were willing, the British workmen would rebel at the consequent tax on his loaf. But leaving the McNeillites to the full folly of their fancies as to the good things to be got from the Conservatives, we submit that they should have some alternative scheme in the event of the Liberals carrying the elections. In that case they should be willing to lighten the present taxation on the farmer and win for him the good will of the English consumer by gratuitously lowering the duty on British imports. If they try to feed the farmer on doubtful promises for 10 lean years of waiting, there will be grave trouble ahead!

The Tory Government at Ottawa cannot secure reciprocity with the States; the Tupper scheme is a practical impossibility; therefore Canada will have to make the best it can out of the free British market which is now available. Under such circumstances, would it not have been wise to adopt Mr. Davies' proposal and encourage British trade by lowering the duties on such articles as we import mainly or altogether from the Mother Country?

EDITORIAL NOTES.

It is stated that when the Conservative members at Ottawa waited on Premier Abbott to urge an increase of the sessional indemnity they advanced as one reason the expense to which members are put in the revision of the voters' lists. As an eastern contemporary remarks, the correct remedy for this evil is the repeal of the Franchise Act, to which this expense is really due. The country is at present saddled with the costs of the revising officers and clerks and the printing, amounting to half a million dollars each revision; and it is surely impudent to propose that it shall also help members to look after their own personal interests in connection with the revision. Let the Conservative members secure the repeal of the act and then this burden will be removed from their shoulders.

The Montreal Shareholder thus relates an incident, on the authority of eye-witnesses, which would seem to show that quarantine is as loosely regulated on the other side of the country as on this: "When the Parisian was on her last trip inwards she arrived off Grosse Isle on the afternoon of Saturday, 18th June, and was met by a boat with two men who informed her officers that the doctor was gone up the river on the launch with a party of ladies, and that if they would go slowly they would meet him. The Parisian started up at a slow speed, keeping a lookout for the launch, which they overtook about 40 miles from the station, when the inspection was made and two children sick with measles were removed to the launch to be taken to the station. The steamer proceeded on her way and arrived in Quebec too late to catch the Richelieu boat for Montreal, which they would have done had not the delay referred to occurred." The Shareholder is a respectable paper, and is the reverse of sensational, else it would be hard to give credence to its statement.

DRINKS SOME DISINFECTANT.

A Young Woman Wounds Her Lover and Tries to Suicide.

Early this morning a young couple of the sporting fraternity, who for some time past have been leading a quasi-married life, created quite a dramatic and almost tragic scene in a prominent restaurant. They were taking a midnight meal in one of the rooms and got into an altercation, which ended in a fight. The woman finally got hold of a water pitcher and struck her lover a well directed blow on the back of the head, inflicting a wound which bled freely and almost knocked him out. When the irate siren saw the effect of her handiwork she became remorseful and tried to put an end to herself by drinking a quantity of carbolic acid disinfectant which she had handy in a small vial. The noise of the row and glass breaking act attracted others who were in the room adjoining, and who appeared on the scene in time to knock the bottle out of her hand and prevent her from getting more than a taste of the disinfectant. A doctor was called in, who attended to the needs of the couple. Jealousy is said to have been the cause of the trouble.

OUR CITIZENS AT LAST AROUSED.

The Doctors Meet and Discuss the Threatening Danger—They Support the Council.

Injunction to Restrain the Erection of a Hospital — Exaggerated Reports.

The excitement in the city during the last two or three days in regard to the disease of small-pox, has not abated in the least today. A week ago it was not known that there was a case in the city, at least to no one but the doctor and the patient, and the first scare of a month ago, when a steamboat hand was quarantined on Herald street, was almost forgotten. The disease brought from Vancouver and thither from China, was supposed to have been entirely eradicated, and people had ceased to take ordinary precautions against it. But on Sunday last and on Monday, the Health Officer, Dr. Milne, was made aware that several new cases had developed, and for the next few days the cases reported were so numerous and so widely disseminatee that people began to think that the contagion was assuming dangerous proportions. The comments of the people on the streets as to the efforts of the authorities—or rather the apparent lack of effort—to suppress the disease were pointed and emphatic. To some extent the general censure has been deserved, and especially in respect to the unpreparedness of the sanitary department of the city government to grapple with the disease. It ought not to have been so, in view of the warning, timely and emphatic, which came from Vancouver and Westminster, in the shape of one or two mild cases of smallpox. The council seemed to have trusted in God, but they failed to "keep their powder dry." The medical officer has not had enough assistance; there was no convenient hospital in which the unfortunate patients could be isolated, and there was no system of quarantining of the houses where the disease was known to exist.

The mayor, the sanitary committee and the health officer have been incessant in their efforts, but at first they underestimated the difficulties they had to content against, and the enemy stole a march upon them. The disease appeared a week ago in one or two places, and since that time, as every person now knows, it has become prevalent in that portion of the city between Pandora and Rae streets on the north and south, and Broad and Cook streets on the east and west. It is still very far from epidemic, but that smallpox is sufficiently general in the locality mentioned to create alarm among the timid people is undoubtedly the case. It is better that the actual facts should be published in order that exaggerated reports may be dispelled and sensational rumors, sent abroad by private and newspaper telegrams, and which are calculated to do more harm than the truth, may be authoritatively contradicted.

The reports current in Vancouver and the Sound cities are to the effect that there are from one hundred to two hundred cases in Victoria, and the business men of the former city have been seriously discussing a proposition to enforce quarantine against us. These alarming reports are untrue. We have Dr. Milne's authority to state that there are to-day thirty-five cases, all told, one-third of which have been removed to Albert Head, fourteen miles by road from Victoria. This is, it must be admitted, more than there ought to be, but the number is not sufficient to drive a single individual out of the city, or to prevent people from coming to it. The disease is of a very mild type, and all the patients are doing well. The energetic efforts now being put forth by the mayor and council and by the medical men will undoubtedly check the disease and in the course of a few weeks drive it out altogether. In the meantime let every person help the authorities by every means in his power to suppress the disease.

QUARANTINE HOSPITAL.

The Mayor Visited by an Angry Crowd. But He is Immovable.

Considerable excitement prevails in the eastern portion of the city over the building of a hospital on what is known as the city's addition to the Ross Bay Cemetery. Last night a number of residents of that vicinity assembled around where the work of building was going on and protested against having it erected there. Then about 12 o'clock an angry crowd collected in front of the residence of Mayor Beaven and in no dignified manner endeavored to prevail upon him to have the hospital removed to some other site. The mayor quietly pointed out the necessity of having a house built at once, and that the place selected was decided upon as the best procurable. Men were sick and they had to be cared for. The crowd quieted down and, after talking the matter over, went away evidently satisfied, one of the party presenting the Mayor with a piece of stuff which he declared was sure proof against smallpox.

An hour later a message was telephoned from Bishop & Sherbourne, whose men were at work at the house, that a crowd had again assembled and threatened to tear the building down. The Mayor promptly communicated with Chief Sheppard about the trouble, who immediately went to the scene, taking Sergeants Hawton and Levin, and four other officers. Among those most actively objecting to the erection of the building, were persons who do not live within half a mile of it, and a justice of the peace and two lawyers were among the crowd, it is said.

After the arrival of the police no further demonstration was made, and three men were left on guard while the carpenters continued with their work.

The matter was hotly discussed on the streets to-day, and some of the residents of the locality went so far as to say they would certainly tear or burn the building down, while others contented themselves by stating they would apply to the courts for an injunction to restrain further work being done in the direction proposed. On the other hand the cool headed people support the action of the authorities and declare themselves prepared to assist the city.

INTERIM INJUNCTION GRANTED.

At 12 o'clock to-day Messrs. McPhillips, Wootton & Barnard, for reci-

dents of Ross Bay, made application before Chief Justice Sir Matthew Baillie Begbie for an injunction to restrain the city authorities from building a pest house on the city property adjoining Ross Bay cemetery. An interim injunction was granted and the authorities were given notice of the decision of the court.

THE EFFECT.

The effect of this injunction has been to stop work on the new buildings at Ross Bay, and there is now little probability that a hospital can be procured for another day or two, unless the Jubilee Hospital board take the matter in hand. When citizens throw obstacles in the way of the authorities and delay work at a critical moment the difficulties of the gentlemen who are trying to do their duty are enormously increased. There appears to be nothing under the sun that an injunction may not issue for, unless it be to stay the death of a victim of the carelessness of somebody. The court in that case has no jurisdiction.

THE DOCTORS MEET.

The Council Sustained---Compulsory Vaccination Advocated---Good Suggestions.

A meeting of the medical men of the city was held this morning in Hon. Theodore Davie's office, Bastion street, to consider the advisability of establishing a Provincial Board of Health. There were present: Dr. Helmcken in the chair, Mayor Beaven, Hon. C. E. Pooley, Hon. Theodore Davie, Hon. J. H. Turner, Superintendent Hussey of the Provincial police, and Doctors Hasell, Milne, Leitch, Frank Hall, Powell, Davie, Hannington, Morrison, Foot, McNaughton Jones, Sproule. Dr. Hasell was appointed secretary.

Hon. Theodore Davie explained the object for which the meeting had been called, and then read a lengthy communication which had been received from Mayor Beaven. In this communication his worship recited in detail the difficulties under which the corporation had attempted to erect quarantine buildings, and the determined opposition which the people at the different points had shown. The city council were doing their best and wished the co-operation of the medical men and the public in their efforts to check the spread of and stamp out the disease.

His worship Mayor Beaven then made a statement explaining more in detail the above mentioned difficulties.

Dr. Hannington followed with a strong appeal for the carrying out of strict quarantine regulations.

Dr. Davie said the quarantine law of the Dominion Government was a perfect farce and required immediate revision and improvement. He advised compulsory vaccination, and said that even in the present day there were to be found people asinine enough to think that vaccination was harmful. By making vaccination compulsory was the only way to overcome those ignorant and stupid prejudices, and this should be done without delay. The quarantine as regarded the China steamers should be much more strict. The present trouble started through the distribution of goods brought over from China and Japan, which contained the specific smallpox bacillus.

Dr. Helmcken asked if the people refused to be vaccinated what are they going to do? and said that the vaccine obtained from the east and elsewhere was worthless. It might not be a bad idea to let the anti-vaccinators go ahead, contract the disease and die, as many of them would be a good riddance to the community.

Dr. Milne, health officer, stated that Dr. Watt, his assistant, had carefully examined every person who went out on the Yosemite this morning and certified to their being all free from taint of smallpox. It had been proposed to close all the second and third class hotels to-night, but of course there would be a tremendous amount of objection, but what were they to do? The only thing was to completely cut off the cases from the outside world or it could never be checked. In talking to the manager of the Driard, he said his business was suffering, and the doctor advised him to close up his house for some time, which would probably be done. He thought a provincial board of health should be formed.

Hon. T. Davie said that as each municipal board was a board of health, it was impossible to form a provincial board, there being no provision of the kind on the statues. He thought that something might be done to see that these boards did their duty properly. He then read the petition of thirty-five residents of Ross Bay and neighborhood as follows: "We hereby earnestly protest against the erection of the smallpox hospital at the city reserve, Ross Bay, believing that its occupation by smallpox patients will be most detrimental to the health of this neighborhood." Mr. Davie said a very indigant deputation had come down with the petition. Another petition of a similar nature was received from the urged that the infectious wards of Fowl Bay residents. Dr. McKechnie Jubilee Hospital be thrown open for the reception and treatment of the smallpox patients, also that sheds be erected at that point, and all the cases taken there at once. This proposal elicited a great deal of discussion for and against. Subsequently the following resolution was put and unanimously carried:

Moved by Hon. Theodore Davie, seconded by Dr. Powell, "That in the opinion of this meeting the infectious ward of Jubilee Hospital should be opened for the treatment of smallpox patients, until the city's smallpox hospital is ready; the city supplying medical attention, nurses and all necessaries, and being responsible to the board for renewing the bedding, etc., which it may be necessary to destroy. And be also responsible for fumigation; and that the directors be requested to comply with the resolution."

His Worship, the Mayor, then stated that Messrs. Bishop & Sherbourne had promised to have the building at Ross Bay reserve ready for occupation in 36 hours from noon yesterday (Friday). They were working night and day. It had been proposed to erect the building at some unoccupied place in Beacon Hill Park, but an injunction would at once be taken out, as had been threatened with regard to all the other places proposed. At Ross Bay, when it was proposed to erect the building, men, women and children swarmed out threatening all kinds of dire things. He had at once instructed the chief of police to send out a guard, which the chief promptly did.

Dr. Davie suggested that the public be at once informed of some central place where everyone could be vaccinated, and again advocated compulsory vaccination. The idea met with the approval of the meeting, but no decision was reached.

In relation to the petition from the residents of Ross Bay, upon which a long and animated discussion took place. Dr. Hannington moved the following resolution, seconded by Dr. Leitch, and it was unanimously carried,

"That this meeting is agreed to support the municipal council in erecting the building for a smallpox hospital at Ross Bay city reserve, considering it the best site under the circumstances and not threatening danger to the surrounding inhabitants."

After a discussion as to the vaccine supply and its proper distribution the meeting adjourned.

BANE AND ANTIDOTE.

Great Sale of Disinfectants—A Traveller Speaks Upon the Trouble.

The sale of drugs and disinfectants of every kind in the city drug stores within the last few days has never been equalled in the history of the city. The disinfectants have gone over the counter in a steady stream, and a corresponding stream of filthy lucre has fallen the other way. The germ killers most called for have been carbolic acid in its various forms, chloride of lime and the antiseptic fluids, Corrdy's, etc. The city last night smelt something like a chemical works. It was noted, however, that the dens of Chinatown sent forth the same old deadly effluvium, which will do more than anything else, perhaps, to perpetuate the present trouble.

In conversation with a gentleman who has been a great traveller and deep student, the TIMES reporter last night had the opportunity of hearing intelligent criticism on the present trouble. Said the person referred to:

The thing that strikes me as strange is the extraordinary apathy of your council and sanitary authorities, knowing the existence of a place like this Chinatown of yours. Will you believe me, when I tell you that it surpasses the worst slums of Naples? where the plague made such awful havoc a short time ago, compelling the authorities to tear down all that part of the city and build on a modern system. The Johnson street ravine, again, beats anything I have seen in any city on the continent. There are places like it in Turkey, Spain and Southern Russia, but not in any country professing modern civilization. It is not surprising that the majority of the cases are around this ravine. But it is simply nothing compared to Chinatown. Do you know that the Chinese authorities would not allow such squalor and filth in their own large cities? Such, however, is the case. The Chinese are by nature lazy, and when they are not compelled to live properly they very soon fall into a state worse than the pigs they drive. In Seattle and other American cities they get after John in a particularly rigorous way; compel the Chinese to live apart, and under severe penalties make them keep their quarters clean. If one half the horrors of Chinatown were known by the general public here, the authorities would be compelled to do something. It is not exactly the sort of thing to sit down beside with folded hands and hope it won't get any worse. It is a mere farce to have a sanitary committee when such an enormous evil is permitted to exist undisturbed from year to year.

SANITARY SUGGESTIONS.

Among the suggestions made for fumigating the city is this by a prominent city official. That Beacon Hill be fired when the wind is setting across the city; that bonfires of tar barrels be burned on the main streets at night, and that the gutters, drains, sewers, culverts and other drainage channels be heavily charged with the strongest disinfectants; that the water used by the street sprinklers be strongly carbolized; that the most stringent steps be taken to cleanse Chinatown, even partially, and that all places of public resort be also thoroughly disinfected.

A SPECIFIC.

Several good authorities have requested us to say that if people will acquire the habit of drinking a cream of tartar boiled in water they will have almost complete immunity from the disease. The proportion is about an ounce in a pint of water, to be drunk when cool.

About Quarantining.

The following dispatches have been received from surrounding cities:

PORT TOWNSEND, July 9.—Steamers will not be quarantined here for the present.

TACOMA, July 9.—Nothing done yet regarding quarantine.

SEATTLE, July 9.—Officers of P. S. & A. S. S. Co. have heard nothing of quarantine. Kingston will leave as usual. Do not think there is any intention of quarantining Victoria steamers.

NANAIMO, July 9.—All trains will be stopped outside of the city and boarded by the health committee, who will examine the patients. All the citizens will be vaccinated, and committee start to do it to-day.

VANCOUVER, July 9.—Nothing done yet regarding quarantine. Boat landed passengers as usual this morning.

NANAIMO TAKES PRECAUTIONS.

NANAIMO, July 9.—At a special meeting of the city council held last evening, it was decided to take stringent measures to prevent the entry of smallpox into this city. To-day's train was held up just outside the city, and Dr. Praeger and Constable O'Connell, accompanied by a few newspaper men, boarded the train and subjected the passengers to an inspection. There was a quick rolling up of sleeves and arms were exposed to prove that the individuals had undergone vaccination, and a few who had not been vaccinated were politely informed by Dr. Praeger that they would have to undergo the operation before they could be allowed to enter the city.

A SUGGESTION.

TO THE EDITOR—A relentless war of extermination should be waged in this town against the domestic fly by insect powder on the window frames and sills, sticky papers, wire cages and fly flaps; for I need scarcely point out the consequences likely to ensue from flys operating on the faces of patients down with this fell disease and then sitting on the faces or hands of other people.

"VERB SAP."

THE CITY AND DISTRICT

Sheffield cutlery at Fox's, 78 Government street.

Patients Doing Well.

Dr. Milne reports that the patients at the quarantine station are doing well.

Disinfectants.

Use Carbo-Napthazone for disinfecting purposes. For sale by Langley & Co., 21 and 23 Yates street. *

Smallpox.

Disinfectants of all kinds may be obtained at Geo. Morison's, 55 Government street. Pocket preventatives a specialty. *

In Chambers.

Ramsay vs. Rice—An application to set aside notice of trial. Settled by consent, notice of trial to be withdrawn. The case was to have been tried next week.

Contract Awarded.

The contract for an addition to Mr. F. W. Vincent's residence in James Bay was this morning awarded to Messrs. Smith & Clark. The plans were prepared by Mr. J. G. Tiarks.

Smallpox Cases

Can be prevented by procuring Microbe Disinfectant prepared only by Dean & Cryderman, chemists, 57 Yates street. Those unable to buy will be furnished free of charge, at all hours of day or night. *

Rails for Seattle.

The steamer J. R. McDonald came over from Seattle this morning and took on a cargo of steel rails. The rails were part of a lot brought here for the N. E. T. Co., who sold them to a Seattle company.

Special Carpet Sale.

During the balance of the month of July, Weiler Bros. call particular attention to a great bargain sale of carpets, rugs, art squares, and chenille curtains. Be wise and call early, it will pay you to buy now. *

Prevent Disease.

Smallpox and other diseases can never be prevented while Chinese wash houses are patronized. Learn a lesson before it is too late and have your clothes cleaned at Victoria Steam Laundry. *White labor.* *

Preliminary Examination.

Mr. J. S. Yates, the Law Society's examiner, will examine candidates in the preliminary examination on Monday. There are six candidates, A. M. Whiteside, A. J. O'Reilly, W. C. Moresby, R. S. Lennie and two others.

Engagement Cancelled.

The manager of the Victoria theatre received a dispatch from Manager Horton, of the "Fast Mail" Company, stating that under the existing circumstances the company would have to cancel their engagement for this evening.

Untrue.

Among the untrue reports flying about is one to the effect that smallpox was in the residence of Mr. Redfern, jeweler. That gentleman requests us to state that there is no truth whatever in the story. About one-half the reports going about are untrue.

New Goods.

Keller's Scotch marmalade, 7 pound tins and 1 pound glasses; Chelsea table jellies, assorted flavors; Christie's pound and sultana cakes and fresh sodas; 'Frisco saloon pilot bread; Underwood's devilled ham, lobsters etc., at R. H. Jameson, Red Front Store, 33 Fort street.

Will Have to be Abandoned.

Mr. R. H. Benedict, who has been east forming a company to take the steamer Beaver to the World's Fair, returned home last evening. He received a telegram announcing the accident to the old steamer. It is now feared that the scheme will have to be abandoned.

Scavengers in a Quandary.

The city scavangers have no place to dump garbage and one of the principal ones told a reporter this morning that he would have to suspend business at once. No steps have as yet been taken to build the crematory and if some place is not found, the city will soon be in an awful condition.

At the Police Court.

Lewis Levy was summoned before Magistrate Macrae this morning charged with committing an aggravated assault upon Lewis Moser. The complainant only got as far as the court door in a hack, wearing a bandage over an eye which appeared to be transformed into a mass of black jelly. The defendant pleaded not guilty and the case was adjourned till Monday.

The Government's Refusal.

Col. Prior, in a letter to another paper, supports the Dominion Government in its refusal of the request made by Mayor Beaven for the use of the grounds near the Marine Hospital for patients suffering from infectious diseases. The TIMES is not disposed to split straws with the apologist of the Government at this time. The fact, however, is that the request was refused after several days consideration, and that it is quite as easy to secure isolation on the reserve as at Ross Bay. The reserve is largely unoccupied. Still, Colonel, it was refused, and you know by this time what it is to be told by the Ottawa people something like this—"We deeply regret that in the public interest your request cannot be granted."

Meeting To-Night.

President Davies of the Royal Jubilee Hospital, has called a meeting of the directors for to-night, at the Board of Trade rooms, and has invited the mayor and members of the Government to be present. The object is to consider the proposition to use the infectious diseases and isolated wards of the hospital for the care of smallpox patients. It is understood that this will be done. Certainly it is the most practical suggestion yet made. There is plenty of ground in the vicinity of the hospital that could be utilized if another building is found to be necessary, while the appliances of the hospital, the facilities for disinfecting and controlling disease, and the valuable assistance of the hospital board, would be of incalculable value. With the matter thus disposed of the people would have greater confidence, and the patients would be more willing to be removed to a place where they know that they would be well taken care of.

Newcombe Pianos.

Tone pure, sweet, brilliant, powerful. Kerr & Begg, 45 Government street. *

It is True.

If it is not right do not do it, if it is not true do not say it. In buying the Bush & Gert's piano you do right. It is true to say it is the best piano offered for sale in this market. Agency, 37 Fort street. *

DISINFECT THE CARS.

A Suggestion That Ought to be Acted Upon at Once.

Among the many ways that contagion may be spread there is none more difficult to guard against than public conveyances of all kinds. The tram-cars upon which a person infected with disease of any infectious character has ridden will carry the germs over all the city and may contaminate thousands. At noon to-day the tram-cars of the city had not been disinfected, an omission on the part of the sanitary officer and management, which has caused general comment. One leading citizen informed the TIMES that he had prohibited his family from using the cars until the happy-go-lucky indifference to public health of those responsible had been abandoned. Every car should be thoroughly fumigated every day, twice a day if necessary. The expense is a trifle and once the attention of the company is called to the matter, there is no doubt the officers will act promptly. In the same way the cab-owners ought to disinfect their carriages and expressmen their wagons.

Brazilian Revolution Ended.

VALPARAISO, July 9.—Reports received from Rio Grande De Sul, which reached me via Monte Video, confirm the news of the surrender of General Savares, thus ending the Brazilian revolution, so far as the state of Rio Grande De Sul is concerned. Telegraphic communications from that state is interrupted and the particulars of the surrender cannot now be obtained. The Italian warships at Buenos Ayres have been ordered to Santos and Rio under instructions sent to the Italian minister. It is probable they have been ordered there on account of the recent riots in which the Italians were insulted.

First Thirteen Inch Gun.

WASHINGTON, July 9.—A most notable manipulation of metal occurred at the Washington Navy yard yesterday, when the first 16 inch steel rifle made in this country was jacketed. The performance was observed by Secy. Tracy and Commander Folger, naval chief of ordinance, under the most favorable circumstances. A short time ago it would have taken 8 months to complete such a gun as this 13 inch weapon, but the present gun, the first of its kind to be built it the United States, will be ready for pouring inside 5 months.

Brief Despatches.

VALPARAISO, July 9.—The American friends of Charles William Riggin, who was killed during the assault upon the sailors of the United States warship Baltimore, by the Valparaiso rioters, will be permitted to give an American burial on American soil. Intendente Reujito has issued a permit for the exhumation of the murdered sailor's body in response to the request of the American Minister.

CHICAGO, July 9.—Mrs. Jerome Bereher, widow of a wealthy Chicago real estate dealer, gave $5000 to-day to the million dollar fund being raised for the Chicago University. This leaves only $40,000 to be subscribed.

GREENVILLE, Ga., July 9.—The wife of Mr. Allmunde was buried a few days ago in the cemetery at Rocky Mount. Allmunde visited the grave the day after the burial and placed flowers there. On the next day he visited a second time and found the earth had sunk. The grave was opened and the remains were found but from the left hand the white glove had been removed and the index finger had been cut off close to the hand.

Wilson, the murderer of Mamie Walsh, was captured by two farmer boys near McMinnville, Or., yesterday afternoon. He had a Henry rifle, but it would not work. The boys knocked him down with clubs and broke his right arm.

What is Known About Fish.

Pliny, the great naturalist, who lived at about the time of Christ, reckoned the whole number of known species of fish at ninty-four. Linnæus, the great Swedish investigator of the eighteenth century, could classify 478, and he is known to have been the greatest ichthyologist of the age in which he lived. The progress made in that particular branch since the time of Linnæus seems all the more wonderful, for now, since the expeditions of the Challenger and others, 13,000 species show up in the catalogues of the fish specialists.

The delicious fragrance, refreshing coolness and soft beauty imparted to the skin by *Pozzoni's Powder*, commends it to all ladies.

ALBERNI.

We have the cheapest and most eligibly situated property in Alberni, for sale in five-acre blocks, on easy terms. Some of the choicest blocks still for sale.

J. E. CRANE & CO.

30 BROAD STREET.

KASLO CITY

KOOTENAY LAKE.

SINCE the opening of navigation many hundreds of people have poured into Kaslo City. The discoveries of last fall have proved as rich as expected, and many new ones, fully as important, have been located this spring. The Kaslo-Kootenay Land Company have built roads and trails into the important mines, and surveys have been completed for the railway. The contract for clearing the right-of-way for the latter will be let in a few days. Many substantial buildings have been erected so far this year, and a large number will be begun immediately, including a handsome hotel.

A large number of business and residential lots have been sold, and many have changed hands at a good profit. In a short time the Company will advance the price of all lots.

Now is the Time to Invest.

For prices, terms and full particulars, apply to the undersigned.

WHAT SHALL I DO WITH JESUS?

Not Enough to Sympathize With His Sufferings or to Reverence His Character.

Everything Else Must be Given Up and the Lord Taken to the Heart.

LONDON, July 3.—Dr. Talmage continues to receive from all classes of the English people the warmest of welcomes and the heartiest greetings. The work of arranging his tour has been exceedingly difficult. So numerous were the invitations awaiting him that to accept some and decline others equally pressing seemed invidious. Wherever he has gone the largest churches in the cities have been crowded to excess and could have been filled many times over. Among the sermons he has preached the one selected for publication this week is from the text, Matthew xxvii, 22, "What shall I do with Jesus?"

Pilate was an unprincipled politician. He had sympathies, convictions of right and desires to be honest; but all these were submerged by a wish to be popular and to please the people. Two distinguished prisoners were in the grasp of government, and the proposition was made to free one of them. There stands Barabbas, the murderer; there stands Christ, the Saviour of the world. At the demand of the people the renegade is set free, but Jesus is held. As the hard visaged and cruel eyed Barabbas goes among his sympathizers, receiving their coarse congratulations, Pilate turns to his other distinguished prisoner—mild, meek, inoffensive, loving, self sacrificing—and he is confounded as to what course he had better take, so he impanels the mob as a jury to decide, saying to them, "What shall I do, then, with Jesus?"

Oh, it is no dried or withered question, but one that throbs with warm and quick pulse in the heart of every man and woman here. We must do something with Jesus. He is here. You and I are not so certainly here as he is, for he fills all this place—the loving, living, dying Christ—and each one of us will have to ask and answer for himself the question, "What shall I do, then, with Jesus?" Well, my friends, there are three or four things you can do with him.

You can, in the first place, let him stand without a word of recognition; but I do not think your sense of common courtesy will allow that. He comes walking on such a long journey, you will certainly give him a chair on which he may sit. He is so weary, you would not let him stand without some recognition. If a beggar comes to your door, you recognize him and say, "What do you want?" If you meet a stranger faint in the street, you say, "What is the matter with you?" and your common humanity, and your common sympathy, and your common sense of propriety will not allow you to let him stand without recognition—the wounded one of the hills. You will ask, What makes him weep? where was he hurt? who wounded him? whence came he? whither goes he? I know there have been men who have with outrageous indifference hated Christ, but I know very well that that is not what you will do with Jesus.

Another thing you can do with him—you can thrust him back from your heart and tell him to stand aside. If an inoffensive person comes and persists in standing close up to you, and you have in various ways given him to understand that you do not want his presence or his society, then you ask the reason of his impertinence and bid him away. Well, that is what we can do with Jesus.

He has stood close by us a great while—ten, twenty, thirty, forty years. He has stood close by you three times a day, breaking bread for your household, all night watching by your pillow. He has been in the nursery among your children; he has been in the store among your goods; he has been in the factory amid the flying wheels, and now if you do not like his society you can bid him away; aye, if he will not go you can take him by the throat and tell him you do not want his interference; that you do not want his breath on your cheek; that you do not want his eye on your behavior. You can bid him away, or if he will not go in that way, then you can stamp your foot, as you would at a dog, and cry, "Begone!"

Yet I know you will not treat Jesus that way. When Pilate could not do that, you could not. Desperadoes and outlaws might do so, but I know that that is not the way you will treat him, that that is not what you will do with Jesus. There is another thing you can do with him—you can look on him merely as an optician to cure blind eyes, or an aurist to tune deaf ears, a friend, a good friend, a helpful companion, a cheerful passenger on shipboard; but that will amount to nothing. You can look upon him as a God and be abashed while he rouses the storm, or blasts a fig tree, or heaves a rock down the mountain side. That will not do you any good; no more save your soul than the admiration you have for John Milton or William Shakespeare.

I can think of only one more thing you can do with Jesus, and that is to take him into your hearts. That is the best thing you can do with him; that is the only safe thing you can do with him, and may the Lord omnipotent by his spirit help me to persuade you to do that. A minister of Christ was speaking to some children and said, "I will point you to Christ." A little child rose in the audience and came up and put her hand in the hand of the pastor and said: "Please, sir, take me to Jesus now. I want to go now." Oh, that it might be now with such simplicity of experience that you and I join hands and seek after Christ and get an expression of his benefaction and his mercy!

You may take Christ into your confidence. If you cannot trust him, whom can you trust? I do not offer you a dry, theological technicality. I simply ask you to come and put both feet on the "Rock of Ages." Take hold of Christ's hands and draw him to your soul with perfect abandonment and hurl yourself into the deep sea of his mercy. He comes and says, "I will save you." If you do not think he is a hypocrite and a liar when he says that, believe him and say: "Lord Jesus, I believe; here is my heart. Wash it. Save it. Do it now. Aye, it is done; for I obey thy promise and come. I can do no more. That is all thou hast asked. I come. Christ is mine. Pardon is mine. Heaven is mine."

Why, my friends, you put more trust in everybody than you do in Christ, and in everything; more trust in the bridge crossing the stream, in the ladder up to the loft; more trust in the stove that confines the fire; more trust in the cook that prepares your food; more trust in the clerk that writes your books, in the druggist that makes the medicine, in the bargain maker with whom you trade; more trust in all these things than in Christ, although he stands this moment offering without limit, and without mistake, and without exception, universal pardon to all who want it. Now, is not that cheap enough—all things for nothing?

This is the whole of the Gospel as I understand it—that if you believe that Christ died to save you you are saved. When? Now. No more doubt about it than that you sit there. No more doubt about it than that you have a right hand. No more doubt about it than that there is a God. If you had committed five hundred thousand transgressions Christ would forgive you just as freely as if you had never committed but one; though you had gone through the whole catalogue of crimes—arson and blasphemy and murder—Christ would pardon you just as freely, you coming to him, as though you had committed only the slightest sin of the tongue. Why, when Christ comes to pardon a soul he stops for nothing. Height is nothing. Depth is nothing. Enormity is nothing. Protractedness is nothing.

O'er sins like mountains for their size,
The seas of sovereign grace expand,
The seas of sovereign grace arise.

Lord Jesus, I give up all other props, give up all other expectations. Ruined and undone, I lay hold thee. I plead thy promises. I fly to thy arms. "Lord save me; I perish." When the Christian commission went into the army during the war there were a great multitude of hungry men and only a few loaves of bread, and the delegate of the commission was cutting the bread and giving it out to wounded and dying men. Some one came up and said, "Cut those slices thinner or there will not be enough to go around." And then the delegate cut the slices very thin and handed the bread around until they all had some, but not much. But, blessed be God, there is no need of economy in this Gospel. Bread for all; bread enough and to spare. Why perish with hunger?

THE LOVING WAY.

Again, I advise you, as one of the best things you can do with Christ, to take him into your love. Now there are two things which make us love any one—inherent attractiveness and then what he does in the way of kindness toward us. Now Christ is in both these positions. Inherent attractiveness—fairer than the children of men, the luster of the morning in his eye, the glow of the setting sun in his cheek, myrrh and frankincense in the breath of his lip. In a heaven of holy beings, the best. In a heaven of mighty ones, the strongest. In a heaven of great hearts, the tenderest and the most sympathetic. Why, sculpture has never yet been able to chisel his form, nor painting to present the flush of his cheek, nor music to strike his charms; and the greatest surprise of eternity will be the first moment when we rush into his presence and with uplifted hands and streaming eyes and heart bounding with rapture, we cry out, "This is Jesus!"

All over glorious is my Lord,
He must be loved and yet adored;
His worth, if all the nations knew,
Sure, the whole earth would love him too.

Has he not done enough to win our affections? Peter the Great, laying aside royal authority, went down among the ship carpenters to help them, but Russia got the chief advantage of that condescension. John Howard turned his back upon the refinements and went around prisons to spy out their sorrows and relieve their wrongs, but English criminals got the chief advantage of that ministry. But when Christ comes, it is for you and me. The sacrifice for you and me. The tears for you and me. The crucifixion for you and me.

If I were hopelessly in debt, and some one came and paid my debts and gave me a receipt in full, and called off the pack of hounding creditors, if I were on a foundering ship, and you came in a lifeboat and took me off, could I ever forget your kindness? Would I ever allow an opportunity to pass without rendering you a service or attesting my gratitude and love? Oh, how ought we to feel toward Christ, who plunged into the depth of our sin and plucked us out!

Ought it not to set the very best emotions of our heart into the warmest—aye, a red hot glow? The story is so old that people almost get asleep while they are hearing it. And yet there he hangs—Jesus the man, Jesus the God. Was there anything before or since, anything to be compared to this spectacle of generosity and woe? Did heartstrings ever snap with a worse torture? Were tears ever charged with a heavier grief? Did blood ever gush, in each globule the price of a soul? The wave of earthly malice dashed its bloody foam against one foot, the wave of infernal malice dashed against his other foot, while the storm of God's wrath against sin beat on his thorn pierced brow, and all the hosts of darkness with gleaming lances rampaged through his holy soul.

THE INFINITE SACRIFICE.

Oh, see the dethronement of heaven's king! the conqueror fallen from the white horse! the massacre of a God! Weep, ye who have tears, over the loneliness of his exile and the horrors of his darkness. Christ sacrificed on the funeral pyre of a world's transgression; the good for the bad, the great for the mean; the infinite for the finite, the God for the man. Oh, if there be in all this audience one person untouched by this story of the Saviour's love, show me where he is, that I may mark the monster of ingratitude and of crime. If you could see Christ as he is you would rise from your seat and fling yourselves down at his feet, crying, "My Lord, my light, my love, my joy, my peace, my strength, my expectation, my heaven, my all! Jesus! Jesus!"

Oh, can you not love him? Do you want more of his tears? Why, he has shed them all for you. He has no more. Do you want more of his blood? His arteries were emptied dry, and the iron hand of agony could press out nothing more. Would you put him to worse excruciation? Then drive another nail into his hand, and plunge another spear into his side, and twist another thorn into his crown, and lash him with another flame of infernal torture. "No," says some one; "stop! stop! he shall not be smitten again. Enough the tears. Enough the blood. Enough the torture. Enough the agony." "Enough," cries earth. "Enough," cries heaven. Aye, "Enough," cries hell. At last enough.

Oh, look at him, thy butchered Lord, unshrouded and ghastly as they flung him from the tree, his wounds gaping for a bandage. Are there no hands to close these eyes? Then let the sun go out and there be midnight. Howl, ye winds, and howl, ye seas, for your Lord is dead! Oh, what more could he have done for you and for me than he has done? Could he pay a bigger price? Could he drink a more bitter cup? Could he plunge into a worse catastrophe? And can you not love him? Groan again, O blessed Jesus, that they may feel thy sacrifice! Groan again. Put the four fingers and the thumb of thy wounded hand upon them that the gash in the palm may strike their soul and thy warm life may bleed into them. Groan again, O Jesus, and see if they will not feel.

Oh, what will you do with such a Christ as that? You have got to do something with him this morning. What will you do with Jesus? Will you slay him again by your sin? Will you spit upon him again? Will you crucify him again? What will you do with him who has loved you with more than a brother's love, more than a father's love, yea, more than a mother's love, through all these years? Oh, is it not enough to make the hard heart of the rock break? Jesus! Jesus! What shall we do with thee?

I have to say that the question will after awhile change, and it will not be what shall we do with Christ, but what will Christ do with us? Ring all the bells of eternity at the burning of a world. In that day what do you think Christ will do with us? Why, Christ will say: "There is that man whom I called. There is that woman whose soul I importuned. But they would not any of my ways. I gave them innumerable opportunities of salvation. They rejected them all. Depart, I never knew you." Blessed be God, that day has not come. Halt, ye destinies of eternity, and give us one more chance. One more chance, and this is it.

Some travelers in the wilderness of Australia a few years ago found the skeleton of a man and some of his garments, and a rusty kettle on which the man had written or scratched with his finger nail these words: "O God, I am dying of thirst. My brain is on fire. My tongue is hot. God help me in the wilderness." Oh, how suggestive of the condition of those who die in the wilderness of sin through thirst. We take hold of them today. We try to bring the cool water of the rock to their lips. We say, "Ho, every one that thirsteth!" God, thy Father, awaits thee. Ministering spirits who watch the ways of the soul bend now this moment over this immortal auditory to see what we will do with Jesus.

"Tired All the Time."

Is the complaint of many poor mortals, who know not where to find relief. Hood's Sarsaparilla possesses just those elements of strength which you so earnestly crave, it will build you up, give you an appetite, strengthen your stomach and nerves. Try it.

Hood's Pills act especially upon the liver, rousing it from torpidity to its natural duties, cure constipation and assist digestion.

Pipe Smokers.

You may be satisfied with the brands of tobaccos you have been using for years. Grant it; that you are satisfied. As there is always room for improvement, we ask you to try our OLD CHUM PLUG, or CUT smoking tobacco; we believe you will be BETTER satisfied. In any case, a trial won't hurt you. m-w-s

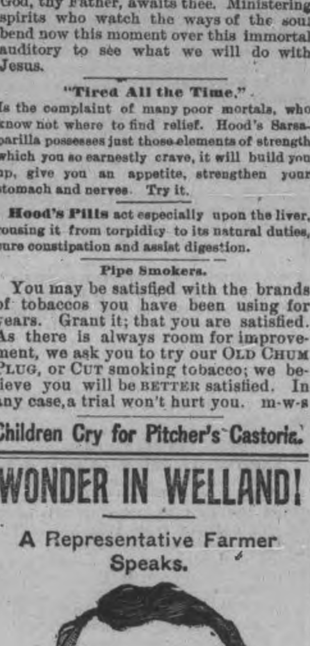
WONDER IN WELLAND!

A Representative Farmer Speaks.



MR. C. C. HAUN.

The following remarkable facts are fully certified to as being undeniably correct in every particular. Mr. Haun is well known in the vicinity, having resided here over fifty years, and is highly respected as a man of the strictest honor, whose word is as good as his bond.

As will be seen from his letter, four physicians had attended him, and it was only after he had given up hope of cure that he decided to try Burdock Blood Bitters on the recommendation of a neighbor who had been cured of a similar disease by its use. Mr. Haun writes as follows:

DEAR SIRS,—I think I have been one of the worst sufferers you have yet heard of, having been six years in the hands of four of our best doctors without obtaining permanent relief, but continually growing worse, until almost beyond hope of recovery, I tried your Bitters and got relief in a few days. Every organ of my body was deranged, the liver enlarged, hardened and torpid, the heart and digestive organs seriously deranged, a large abscess in my back, followed by paralysis of the right leg, in fact the lower half of my body was entirely useless. After using Burdock Blood Bitters for a few days the abscess burst, discharging fully five quarts of pus in two hours. I felt as if I had received a shock from a powerful battery. My recovery after this was steady and the cure permanent, seeing that for the four years since I have had as good health as ever I had. I still take an occasional bottle, not that I need it but because I wish to keep my system in perfect working order. I can think of no more remarkable case than what I have myself passed through, and no words can express my thankfulness for such perfect recovery.

C. C. HAUN,
Welland P.O.

In this connection the following letter from T. Cumines, Esq., a leading druggist of Welland, Ont., speaks for itself:

Messrs. T. Milburn & Co., Toronto.

GENTLEMEN,—I have been personally acquainted with Mr. C. C. Haun for the last 20 years, and have always found him a very reliable man. You may place the utmost confidence in anything he says with regard to your medicine. He has on many occasions within the last four years told me that it was marvellous the way the Burdock Blood Bitters had cured him, and that he now felt as able to do a day's work as he ever felt in his life. Although quite well he still takes some B. B. B. occasionally, as he says, to keep him in perfect health.

Yours truly,
THOMAS CUMINES,
Welland, Ont.

The steadily increasing sale of B. B. B., the length of time it has been before the people, and the fact that it cures to stay cured, attest the sterling merit of this monarch of medicines, the people's favorite blood purifier, tonic and regulator.

E. ADAMS, ESQ.

A FORMER MEMBER OF THE VERMONT LEGISLATURE.

He is Now an Officer of the United States Government and Resides in Montreal.

HE SPEAKS FOR THE BENEFIT OF CANADIAN MEN AND WOMEN.

HE TELLS CANADIANS OF THE GREAT AGENT THAT GAVE HIM NEW LIFE AND STRENGTH—HE STRONGLY ADVOCATES THE USE OF PAINE'S CELERY COMPOUND—HE NOBLY DOES HIS PART TOWARDS IMPLANTING HOPE AND COURAGE IN EVERY SUFFERER'S HEART.

The American Government have a staff of very efficient and gentlemanly officers in Montreal—men who are in every way qualified by education and social position to reflect credit on the administration to whom they owe their appointments.

Amongst the American officials located in Montreal, we wish at this time to speak particularly of the one who is popular and well-known, and who has become a great favorite with the travelling public; we refer to Mr. E. Adams, Deputy Collector and Inspector of United States Customs.

Mr. Adams is a native of Vermont, and is in every respect a true representative of the Green Mountain State, that has given to the Union so many distinguished warriors and statesmen.

Mr. Adams is a Vermonter who has done good service as a politician. He represented his native town and district for four years at the seat of government in Montpelier; and afterwards occupied the important position of Sergeant-at-Arms in the State Legislature. His reputation for honesty and attention to public matters induced the Federal Government to place Mr. Adams in his important position, where he is esteemed by all classes of the Canadian people.

Mr. Adams, amid all the turmoils of politics, and while in the performance of the duties of office, was for years a great sufferer from neuralgia. When he came to Montreal to attend to his work in the Customs Department, he suffered terribly at times from this intolerable malady. Later on, owing to the pressing work and cares of his office, he suffered from insomnia (sleeplessness), and became physically weak and run-down.

Mr. Adams was not utterly discouraged, though he met with many failures in trying to regain health and rid himself of life-destroying troubles. He fortunately heard of a remedy which had given new life to thousands in Canada. He heard his friends speaking of Canada's mighty agent, Paine's Celery Compound, and was astonished when he heard of the almost miraculous cures it had effected.

He wisely decided to try the wonderful remedy, and test its efficacy. He did not try in vain; the first bottle acted like magic; he felt that providence had led him to the fountain of healing that he often wished to drink from.

Paine's Celery Compound in a short time banished every trouble; and perfectly restored Mr. Adams to health and strength.

We believe that we only voice Mr. Adams' opinion, when we assert that no other remedy known to mankind could have produced such grand results. Scores of Mr. Adams' friends in Montreal know of the marvellous cure, and are ready to vouch for every statement that he makes.

It is with very great pleasure that we give to the public Mr. Adams' testimonial; we feel certain that it will be the means of influencing thousands of sufferers who are in doubt, or who have been lookking in vain for an honest agent to renew life.

Mr. Adams says:—

"It gives me very great pleasure to add my testimony to the thousands of testimonials you have already received in favor of Paine's Celery Compound.

For several years I was troubled with neuralgia, and suffered very much with it. Paine's Celery Compound has entirely banished this affliction. I was also sleepless, weak and run-down, and in these serious troubles your Compound has proved a valuable friend.

"I can assert with confidence, that I have never used any remedy which has so thoroughly built me up in every way.

I have great pleasure in recommending it to all who may have need of an honest and efficacious remedy, as I feel certain Paine's Celery Compound will accomplish all it claims to do."

Yours very truly,
E. ADAMS,
Deputy Collector and Inspector United States Customs.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

CANADIAN NOTES.

News by Mail and Wire From All Parts of the Dominion.

W. Benoit, aged 19, fell from a steamer at Chatham, Ont., and was drowned.

Rev. Thos. Cosford, a well known Methodist minister, of Londan, Ont., is dead, aged 79.

Patrick Casey was sentenced at Winnipeg to six months in jail for burning a bridge near Rosser.

Fred Brown, foreman in the Waterous Engine Works, Braniford, was killed in the machinery.

C. R. Drake, whose parents reside in Hamilton, left Winnipeg on May 27 to come home, but has not yet shown up there.

Mrs. Elizabeth Sutherland, of Woodstock, Ont., aged 93, took carbolic acid in mistake for Jamaica ginger. She died in thirty minutes.

Chief of Police Jackson, of Petrolea, fell down stairs in the station house, and alighted on his head on a stone floor, receiving probably fatal injuries.

A private message from New York says Manitoba wins the banner for the greatest proportionate gains in membership in Christian Endeavor societies.

The Toronto City Council appointed E. G. Keating city engineer. Mr. Keating is at present city engineer of Duluth, and formerly held the position in Halifax.

James O'Connor, aged 32, criminally assaulted a 10-year-old girl named Marriott, and then attempted to drown the child by throwing her into creek. He was arrested and jailed.

THE COMMERCIAL CAPITAL.

Anti-French Canadian Fanaticism—Four Hundred Cars of Wheat.

MONTREAL, July 8.—Sam Hughes, M. P. for North Victoria, writes Le Canadien with reference to an article published in that journal attacking him as one of the "Apostles of anti-French Canadian Fanaticism," and reproaching him with favoring the establishment of a colony of Orangemen in Canada. Mr. Hughes admits that movements are on foot to establish a colony and defends it. He declares that he has not made any attacks upon the French Canadians, either in his paper, the Victoria Warder, or from his seat in the House.

A grain blockade exists at this point. The C. P. R. elevators are full, and over 400 cars are said to be standing on the tracks, full of wheat, and there it stays. There is no demand for it in England. The people there are too much engrossed with the elections to pay attention to business, and it is almost impossible to get replies to cables.

PROVINCIAL NEWS.

VERNON.

About 250 acres have been planted in fruit this spring in the Mission valley.

Farmers are looking happy all over the district, the late rains having insured good crops.

Cherry creek rose very high last Thursday and temporarily stopped work at the placer mines.

The machinery for Mr. Smith's sawmill, near Okanagan landing, has arrived and the mill will be running in a few weeks.

A handsome steamer, similar to those plying on the Arrow lakes, will probably be built this year by the C.P.R. for the Okanagan lake traffic.

Mr. Latimer's survey party started out on Tuesday. They will be absent about two-and-a-half months in the upper Shuswap district.

We understand from Mr. C. W. Ireland, who is acting as agent for the petitioners, that the Government have decided to grant letters patent incorporating the Spallumcheen valley with as little delay as possible, arrangements having now only to be made for the first election.

Mr. Gartrell's peach trees at Trout creek are literally loaded with fruit. He expects to make money out of his orchard this season.

The heavy storm on Okanagan lake on Monday night did considerable damage to the wharf at Penticton, washing off the planking and loosening the cribbing.

The Spokane and Great Northern Co.'s stamp mill on Boundary creek is nearing completion and machinery for lead silver concentration is now being brought in. The rich recent silver strikes about five miles above the mill are stated to discount all previous finds the result being a renewed influx of miners and prospectors into that section. There is little doubt that a mining recorder will soon be needed for the Boundary creek district.

Capt. Shorts, W. J. Armstrong, C. Brewer and others have located mineral claims during the past week on the east shore of Swan lake. A quartz ledge has long been known to exist close to the wagon road, on Mrs. Greenhow's property, about ½ mile north of the building on the Lyons upper farm, but no one has hitherto thought it worth while opening up. The intention of those interested is to develop their claims without delay. The ledge, which runs right onto the road, is about twenty feet wide, and has been traced for over a mile up the mountain. Over two years ago Mr. Armstrong sent some samples of the rock for assay, which averaged $15 to the ton in gold. There is little doubt that the ore is free milling and that there is an immense quantity of it.

ALBERNI.

Mr. H. Guillod, Indian agent, returned from his tour on the West Coast a week ago. He came down from Kyuk-aht in a week. Many of the Indians are away sealing, and it is reported that Kennedy, an Alberni Indian, has been killed and five canoes of the schooner Arietas, manned by Alberni Indians, have been lost in the north.

The 1st of July, Dominion Day, was celebrated by the cricket club on the flats across the Somass. The teams were not well matched, as many players had no practice, so the game was easily decided. With more practice the boys will play well.

The Indian school, conducted by Miss McDonald, closed on the 30th of June, with an attendance of 20 pupils. The children of the Indian Sunday School, with their friends, had a picnic in the afternoon, which was enjoyed by all, as it was something new to the Indians.

MORE STATISTICS.

Strength of the Different Nationalities in Canada in 1891 as Compared with 1881.

From Our Own Correspondent.]

OTTAWA, July 2.—Another bulletin has been issued in connection with the census. By the census of 1871 and 1881 the "origins" are now omitted and the population divided into native Canadians and Canadians not native.

There is a decrease of the native born population of 1891 as compared with 1881. The percentage of increase of 1871-81 was 14.2, while that of 1881-91 only 10.3.

NATIONALITIES IN CANADA.

The following shows the birth places of the Dominion:—

	1891.	1881.
Born in Canada	4,155,014	3,685,545
England	218,961	160,492
Scotland	107,365	115,010
Ireland	148,848	185,522
Newfoundland	9,331	4,596
Other British Possessions	4,432	3,545
United States	80,430	77,750
China	9,127	4,383
France	5,377	3,384
Germany	27,711	25,328
Italy and Spain	2,851	992
Russia and Poland	9,196	6,376
Scandinavian	7,826	2,074
Other Countries	13,190	13,500

THE LINQUAL DIVISION.

	French.	English.
1881	2,293,304	2,904,575
1891	1,415,090	3,385,421
Increase	120,786	885,846

FRENCH SPEAKING PROVINCES.

	1891.	1891.
British Columbia	1,181	723
Manitoba	11,102	9,868
New Brunswick	61,767	56,572
Nova Scotia	30,181	40,997
Ontario	101,123	101,194
P. E. Island	11,847	10,736
Quebec	1,196,346	1,071,581
Northwest Territories	1,543	2,633
Canada	1,415,090	1,294,304

In 1881 the French speaking candidates were 30.1 of the whole population of the Dominion, while in 1891 there are 29.4, which shows a small decrease. In Manitoba in 1881 the French were 15 per cent. of the whole population, while now they are only 7.3. In British Columbia they have decreased from 1.5 to 1.3. In Nova Scotia from 9.3 to 6.7; in Ontario from 5.2 to 4.8; and in the Northwest Territories from 10.1 to 2.3. In Quebec the French have decreased from 78.9 to 80.4; in Prince Edward Island from 9.8 to 10.8 and in New Brunswick from 17.7 to 19.2.

NATIVE BORN CANADIANS.

	1891.	1881.

Northwest Territories	47,783	23,939
Canada	4,155,004	3,685,545

SLABTOWN.

Crespo's Defeat.

NEW YORK, July 9.—According to the Venezuelan authorities General Crespo, chief of the revolutionary forces, has been again defeated. The announcement of the latest victory for the government contained the following cablegram received last night by General Bolet Peraza, Venezuelan minister at Washington, who is now in this city: "Caracas, July 8.—To General Bolet Peraza, Minister of Venezuela at Washington: Crespo's faction is completely dispersed. General S. Ayla Leoncio, Quinta, Martin, Vegas and Wenceslao Casuada have surrendered, placing themselves under the clemency of the government. (Signed) Minister of Foreign Relations." The Venezuelan authorities have sent out many reports that Crespo had been defeated, but he has so far turned up again as full of fight as ever.

COAL
The New Vancouver Coal Mining & Land Co., L'd.
(FORMERLY THE VANCOUVER COAL CO.),
ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.
THE NANAIMO COAL | THE SOUTH FIELD COAL
(Used principally for Gas and Domestic Purposes). (Steam Fuel).
THE NEW WELLINGTON COAL
(House and Steam Coal) are mined by this Company only.
THE "NANAIMO" COAL gives a large percentage of Gas, high Illuminating Power, unequalled by any other bituminous Gas Coal in the world, and a superior quality of Coke.
THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.
THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.
The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.
SAMUEL M. ROBINS,
Superintendent.

I AM A MAN

"I have been treated by doctors, who had long lists of so-called cured patients, but they could not reach my case, and hope had been murdered in me by fair promises, but on first application of your magical appliance, hope and confidence came flocking in stronger than the combined powers of the four winds. I knew then that you would cure me, and now that I am a man and well again, I cannot thank you sufficiently for the cure. So again I say, use my name as reference whenever you wish. You nor any one else cannot use words too strong to express my sentiments in favor of so wonderful a treatment as that given by you."
(Original on file; name of writer furnished in confidence.)

GLADSTONE QUESTIONED.

A Brewer Catechises the G.O.M. and Receives Pertinent Answers.

LONDON, July 8.—While Gladstone was addressing a Liberal gathering at Cortorphine yesterday Mr. Ushur, a brewer, appeared with a huge manuscript in his hand and began to put questions to Gladstone. The crowd greeted him with a storm of abuse. Ushur, amid continued interruptions, demanded whether the Liberal leader approved of the plan of campaign in Ireland. Gladstone indignantly said that the questioner had never taken the pains to read his speeches. He reiterated that the government had brought about the plan of campaign. When the uproar had subsided Ushur said: "Then I understand that under these circumstances Gladstone approved the plan of campaign?"

Gladstone responded with intense irony, shaking his finger and saying: "I am not responsible for this gentleman's understanding. I am responsible for the understanding the Almighty pleased to lodge in this skull of mine; but I am not responsible for the understanding Almighty God has pleased to lodge in that skull of his." Ushur asked about the law of conspiracy. Gladstone, with a fierce flash of the eye, said, "You want to entangle me in a legal question?" Ushur then demanded: "Would you accept an alliance with the Parnellites if you could get it?"

Gladstone trembled with indignation. He paused for a moment and then began: "I wish, my friend, that——" The crowd shouted: "Don't answer." The chairman of the meeting declared the question impertinent and said he would not allow it. Ushur, undaunted, continued: "Who have been the supporters of law and order hitherto in Ireland?" Gladstone said: "Not the present Government, for in 1878 they shot down by constabulary and soldiers three innocent men who were engaged in a legal and peaceable meeting, and the gentleman supports them." Gladstone concluded, emphasizing his words with resounding thumps upon the table.

CHURCH NOTICES.

Services in the Different Churches To-Morrow Morning and Evening.

Rev. J. H. Scott, of Port Townsend, will preach at Calvary Baptist Church, Herald street. Professor Armytage has been appointed chorister of the church and will commence his duties to-morrow. It is also expected that Rev. J. A. Gordon, pastor of the Baptist church of Charlottetown, Prince Edward Island, will take part in the services. Mr. Gordon is one of the delegates appointed by the Canada Pacific Railway to inspect the agricultural resources of British Columbia and the Northwest. The reverend gentleman is one of the most prominent pastors of the Maritime Provinces.

Rev. P. H. McEwan will preach at Emanuel church to-morrow, both morning and evening.

Christadelphian Hall, 209 Douglas street.—At 11 a.m., for the Breaking of Bread: 7 p.m., reading. Subject, Does the Bible teach that the world is to grow morally better before Christ and His kingdom comes? Wednesday, Bible study at 7:30 p.m. All are welcome.

There will not be a meeting at the at the Young Men's Christian Association to-morrow afternoon according to the usual custom.

CHURCH OF ENGLAND NOTES.

The following are the preachers in the churches to-morrow:

Christ Church Cathedral—At 8 a.m., Holy Communion; morning, the Rev. Canon Beanlands; evening, the Rev. J. B. Hewetson.

St. James' Church—Morning and evening. Ven. Archdeacon Scriven.

St. John's—Morning and evening, the Rev. Percival Jenns.

St. Barnabas—Morning and evening, the Rev. G. W. Taylor.

St. Saviour's—Morning and evening, the Rev. W. D. Barber.

St. Paul's, Esquimalt—Morning, and evening, the Rev. S. C. Scholefield.

St. Mark's—Morning and evening, the Rev. W. H. P. Arden.

St. Luke's, Cedar Hill—Morning, and evening, Rev. M. C. Browne.

Cadboro Bay—Afternoon at 3.

Provincial Jail—Morning, at 9:30.

Indian Reserve—Afternoon at 3:30.

Jubilee Hospital—Afternoon at 2.

The Sunday school at Christ Church cathedral will be discontinued for to-morrow as a measure of precaution; and the Sunday School union due to meet at Esquimalt on Tuesday next is also postponed for a few days for the same reason.

The Lord Bishop of Columbia will preach and celebrate at St. Mark's church on Sunday, July 17th.

PROF. MULDER MISSING.

A School Teacher Supplies Himself with Funds and then Leaves the City.

The trustees of the Craigflower school will in a few days be advertising for a new teacher for their school.

Professor Mulder, who occupied the position for about six months, left town about two weeks ago, and although he promised to be home last Monday, he has not yet returned. One of the trustees becoming suspicious on account of Mulder's absence, entered the schoolhouse where the teacher resided, and found that everything of value had been removed.

Then the creditors became nervous, and they are now making anxious inquiries for the missing professor.

Among the accounts are a couple for $250 borrowed money, a bill for a wine supper, and several small sums.

AMONG THE SECRET SOCIETIES.

The Orangemen to Attend Church To-Morrow Morning—Other Society Notes.

There has been very little going on among the societies during the past week.

At the regular meeting of the St. Andrew's and Caledonian Society held last evening all the old officers were re-elected. The affairs in connection with the 4th of July picnic were wound up and showed a good balance.

The members of the Orange lodges of the city will meet at Foresters' Hall, Government street at 10 o'clock to-morrow morning, and at 10:30 will start for the Centennial Methodist church, Gorge road, where they will attend service. The flute band will head the parade.

Grand Master Leizer and several members of the older lodges, A.O.U.W., paid a fraternal visit to Sullivan Lodge last evening. Sullivan Lodge will return the visit next Wednesday evening.

There is talk of a grand social to be given by Sullivan Lodge, A.O.U.W. It would be a grand re-union of Workmen.

Seghers Council, Y.M.I., will shortly elect delegates to represent them at the Grand Council meeting to be held in 'Frisco, Cal., in October.

The quarterly report of the Y.M.I. will be read at the next meeting. The report shows a membership of 72, and not one case of sickness.

The different lodges, I.O.O.F., will install officers next week.

Sunset Lodge, K. of P., will meet to-night.

D. D. Grand Chancellor M. J. Conlin at last night's meeting of Far West Lodge, No. 1, K. of P., instituted the following officers: Wm. Duck, P. C.; H. L. O'Brien, C.C.; J. L. Smith, V. C.; J. C. Byrne, P.; A. E. Young, Mat. A.; H. Dobbs, I. G.; and A. Elliot, O. G.

SPORTING INTELLIGENCE

Matters of Interest Going Forward in the Sporting World, Here and Elsewhere.

BASEBALL.

The diamond game is again coming into favor in the interior. The other day the Vernon team defeated the Enderby boys by a score of 33 to 9. George Borthwick of this city umpired the game.

BO KUM'S STORY.

Sold Many Times—The Terrible Life of a Chinese Girl.

The following is the story of Bo Kum's life, as told by herself at the Methodist Chinese Rescue Home, to Rev. J. E. Gardner:

METHODIST CHINESE RESCUE HOME, VICTORIA, June 20, 1892.

My name is Bo Kum. I was born in Shanghai, and am now 20 years old. When I was about five years old, an old woman stole me from my home and sold me to another woman named Wun Dai-hee. Wun Dai-hee was the mistress of a white man, captain of a steamer running between Shanghai and Hongkong. She had five other girls about my age that she was bringing up in her own house, besides about a dozen girls she had in houses of ill-fame. She, now and then, went to Hongkong with the captain and took me along. When I was 12 years old, she took me to Hongkong and sold me to a man named Cheng Kan for $300; he brought me, with two others, to this country, and sold me to a woman named Kwai Kum for $850. This woman, who is now in China, was the first to force me to a life of shame, and when she went to China, some three months after she bought me, she sold me to a woman named No Ah Ts'at, who took me to Simalkameen, where I was kept one year. Then she died. As this woman had bought me with money borrowed from Ah Foo, he, at her death, took possession of me, and took me to New Westminster, where he put me in a little house by myself. Ah Foo kept me in New Westminster for four years. It was because Ah Foo's woman, who is really another man's wife whose name is Cheung Ah Yau, had beaten me many times for not making enough money for them, that I married a man named Lee Leung, alais Ah Sam, who had promised to take care of me. Contrary to his promise, he took me to Ladner's Landing and forced me again to a life of shame. I was detained there about eight months, when he brought me back to Victoria, that was about October of last year. I was kept in Victoria until the 19th day of the 5th month. He then forced me to leave for Lulu Island. I was escorted to the boat by my husband and ten or more other men who were all armed. They had knives and pistols and threatened to kill me if I tried to get away. This was done because they feared I might go to, or be snatched away by Chiu Hee and his party. Chiu Hee is a man I often went to when I was in Victoria. I was in Lulu Island about four months when Chiu Hee came with a policeman and had me arrested, taken to New Westminster and put in jail. Ah Foo was to help Chiu Hee in getting possession of me; these two were afterwards arrested.

While I was in jail I was visited, on behalf of the Christians, by Mrs. D. Robson and another lady, by Mrs. Ch'an, Miss Leeke, Rev. Mr. Ch'an, Dr. Liu and Tom Chue. At first I refused to go to the "Home" having heard all kinds of bad stories about it. At last I consented to go and Mrs. D. Robson brought me to Victoria; on my arrival Rev. Mr. Gardner met me at the steamer and accompanied me with Mrs. Robson to the "Home." I am now in the "Home," and had I known before how nice a place it is I should have asked to be rescued long ago.

Rigby waterproofs are now the correct thing. The day for rubber clothing is ended.

DIED.

TOWNSEND—In this city on the 8th instant, Frank Townsend of this city, aged 20 years. The funeral will take place to-morrow at 4 o'clock from the family residence, No. 8 Rae street.

NEW ADVERTISEMENTS.

PROVINCIAL ROYAL Jubilee Hospital

A special meeting of the Board of Directors will be held at the Board of Trade Rooms this, Saturday, evening at 8 o'clock, to take into consideration the advisability of using the infectious isolated wards for smallpox cases. The medical staff of the Hospital, the members of the Government and His Worship the Mayor are invited.

JOSHUA DAVIES, President.

DISSOLUTION OF PARTNERSHIP.

WE, THE UNDERSIGNED, doing business as real estate and financial brokers under the firm name of Hamlin, Bourchier and Company, have this day agreed to dissolve the partnership heretofore existing between us.

Mr. Bourchier will carry on the business in his own name at the offices occupied by the late firm. Mr. Hamlin occupying an office at the same place.

Mr. Bourchier will receive all moneys due the firm and pay all accounts against the same.

Dated July 6th, 1892.

L. B. HAMLIN.
FRANCIS BOURCHIER.

Messrs. Belyea & Gregory, barristers, 65½ Government street, are authorized to receive and receipt for all moneys due the late firm and to receive all accounts against the same.

Dated July 9th, 1892.

jy9-1w FRANCIS BOURCHIER.
